"Sidewinder" Australian F.D. Champion and Olympic representative.

Olympic performance for your Heron

The same knowledge and experience that went into the sails, spars, fitting and rigging of Sidewinder are available to you.

Our Heron sails are custom made to suit individual requirements for top racing performance and our specialised Heron fittings are designed for maximum strength and efficiency with minimum weight.

Please 'phone or write for details of our Heron fitting out guide, pre-cut easily assembled building kits and racing sails. Our experienced sailing staff is at your service.

We accept reverse charge 'phone calls for sail orders from anywhere within Australia. Prompt mail order service.

COVER PHOTO

A sparkling sea, clear sky and a nice breeze - perfect ingredients for sailing as J. Wilson (5170, STRIFE. S.A.) and J. Elsegood (5158, NICKY S.A.) take their Herons out to the start of a Heat in the 9th National Championships. January 1968 at St. Kilda, Melbourne.

TIME FOR A CHANGE - PHILLIP ROWE

The last A.G.M. brought into office Charlie Hutchings as your new HERON NEWSLETTER EDITOR. This issue is a joint effort and a fantastic issue it is - quite the biggest editorial work ever completed by the Y.W.H.S.A. and something I am extremely proud to have had a hand in.

For me this is also a somewhat nostalgic occasion since I have sold my Heron and purchased a larger boat and hence my Heron sailing has come to an end, for the time being, at any rate. I have sailed a Heron now for nearly five years, three in Melbourne and two in Sydney and say with all sincerity that the Heron has been part of my family all that time, at least it has been pampered, nourished and loved as part of the family and at times has shared the living room and oil heater with us during bi-ennial spruce-ups.

Not that there has not at times been friction about the Heron, possibly because my first Heron arrived home the same day as our first child came home from hospital and my wife's attitude to priorities ever since has been coloured by that fact. However, our lives were dramatically transformed from the first day we started sailing our Heron. Three years later when moving to Sydney we had so many friends as a result of our Heron sailing we found it very difficult to make the decision to leave.

Of course we all know that one of the Heron's chief attractions is its family participation characteristics but this means different things to different people. For example, to some it means taking the children as crew during races but this is something I have never been able to do since my oldest is not yet five years. To me family participation means meeting adults of a similar age and inclination as far as sailing is concerned and enjoying the friendships that arise. - THIS IS ONE OF THE GREAT STRENGTHS OF THE HERON ASSOCIATION - you see it everywhere, the same hard core of members at clubs and in the Association who turn up week after week, year after year. It is not just the Heron sailing which is the attraction, but it is the Heron which has brought the people together and will hold them together.

So much for the hard core of membership but what about those who come and go. We know that there is a large annual turnover of members and one cannot help forming the impression that perhaps a little more could be done by everyone in helping new Heroners to assimilate. It is very easy to chat to your friends on the beach but takes a little more effort to go out of your way to welcome the newcomer. Perhaps this is because we think the Heron's attractions are self evident and no longer need to be promoted so vigorously, and as a consequence membership will continue to grow regardless - PLEASE DO NOT BE DECEIVED - THE SIGNS ARE THERE. Membership rate of growth has not been sustained in some states; competition from other classes is stronger and new materials are winning favour over plywood panels. It is not the winning of new members each year which is the problem, it is the retaining of old ones.

AN INTRODUCTION – YOUR NEW EDITOR

Redheaded, Fat (the more polite people say stout) and Forty Sailing experience - meagre.

Had tremendous fun building a Heron in 1966; more fun in 1967 - learning how to keep the darn thing upright in any breeze over five knots; and still more fun in 1968 and 1969 when the penny finally dropped.

Sails with Middle Harbour Heron Sailing Club, Sydney and was incidentally presented by his club at the Annual Prize-giving with a large jar of pickled onions for his pickling feats during the 1967 - 1968 season.

Crewing services supplied by a 13 year old daughter and a 10 year old son, who once mutinied when an exasperated father, in demonstrating the fastest and best way of setting the whisker pole missed and poked the sharp end into his ear.

Persuaded to accept the Editorship by our President so as to represent the large number of Heroners who are relatively new to the sport and the boat itself.

So please remember, its from members with backgrounds similar to that above - in other words, the mugs - that articles and queries on the boat and the sport are earnestly solicited. This then, combined with the wonderful information and advice that has always been so readily forthcoming from the more experienced and skilful members, will continue to make our Newsletter a pleasure to receive.

May I look forward to help from you all? CHARLES HUTCHINGS

PRESIDENT'S REPORT 1968-69

Last year, when I presented my first Presidential report to you, by reason of the timing of the issue of the Year Book, I was spared the need to speak to you at length - and you were spared the need to listen.

This year, in view of the fact that the next issue of Heron Newsletter will be the Year Book issue, neither you nor I are lucky - it will be necessary for you to listen to me.

It seems such a short time since I set out to write that first report that I am at a loss to know what I can say to add to it. It was, in fact, a report generated and accumulated over several years as General Secretary and said most of the things which I had long wanted to ram down the throats of a captive audience.

Looking back on the 1968-69 season, it was, of course, a short year - it is only nine months since our last Annual General Meeting, a meeting at which we took the step of moving forward the Association administrative year, so as to make it fit more neatly and conveniently into the Yachting Year - so as to give the outgoing Committee the chance to give its report while its memories were fresh - so as to give the incoming workers more time, huddled round room heaters, to plan activities for balmier days.

This short year has meant that there has been reduction in the statistical figures which it is customary to present to you.

The Management Committee has met four times and the Executive has held two Special Meetings - these special meetings were designed to allow members of State Branch Committees, who happened to be in Sydney on other matters, to meet and talk over their problems with the Executive. I believe these talks were fruitful in promoting a more general understanding of the parochial and national problems. Visitors who particularly come to mind were Alan Robinson from Queensland and Ted Fletcher from Western Australia - South Australian Secretary Jim Taylor and Victorian President, John Coen, were of course at the January Committee Meeting.

Your Association's officers for 1968-69 have done, I believe, the good job which you have become accustomed to expect of them without question. It is with regret that I have heard that some, at least, of them will not be available again for next year. And in this regard I would pay special tribute to Mrs. Barrett who, for 4½ years has, at first singlehanded and latterly with Mrs. Clarke in the crew, sailed a serene course through the waves of correspondence (some of it quite strong when the subject of naming boats comes up) which arrive in endless procession in the Association letter box.

The Measurement Committee has worked continuously and I would be remiss if I did not thank them for the very considerable effort they have expended this year.

To those of you who have been awaiting return of membership cards with boat classifications for longer than you wanted to wait, I would point out that classification of boats is only one of the duties of this Committee. It has spent a great deal of time this year on the vexed and still incompletely resolved question of sail measurement. And again, it has been plagued by mail delays and losses and by Measurers, some of whom unwittingly usurp the Measurement Committee's functions or who fail to forward Measurement forms or who fail to collect member's membership cards, in the first instance, when measuring a boat.

This was a remarkable year in that, having settled the 11th Championship on Adelaide and the 12th on Hobart, we have three States vyeing for the 13th Series. As I write my notes, the choice between Perth, Brisbane and rural Victoria is not resolved, but whichever way it goes the N.S.W. contingent will have a trip ahead of them for the 1971-72 series.

The 10th Championship series has been reported in excellent detail in the March, 69 Heron Newsletter. Suffice to say, I think, that Alan Crane, Bill Brown, Jill Lawson, the Woollahra Club and its Flag Officer, Henry Arthur - a most professional starter - are pleased that it is over and that it went off so well.

On membership, the Registrar reports that we all but reached the 2000 mark; this means that we have just held our own on the figure of 2047 for 1967-68 as in that figure were included 102 who joined in the 1st April/30 June period last year. (It has always surprised me how many people do join in this period.)

We still have the problem, however, that a very large proportion of the membership is new to the sport of yachting. It is here that I address my remarks to the old lags - not so much to those like Neville Corvisy whose first boat was 2275, Frank Buckley who sailed 3020, Laurie Oxenford with 3095 and Bill Brown who is still sailing 3351. All of these and many more of similar vintage are actively sailing with us. Rather I address those who have two or three seasons of Heron sailing and racing to their credit.

I believe that, if the Heron is to continue to prosper, it is essential that you, who know something of the boat, something of its strengths, something of its weaknesses and disabilities, something of the dangers inherent in centreboard yacht sailing, should go out of your way to reach people - and not only Heron people - and assist and advise them on how to get the best out of their boat, how to avoid unpleasant, dangerous and, lets face it, even lethal situations which can and do arise out of mixing unskilled or ill-informed helmsmen and crew with ill-found boats and inclement weather and seas.

Perhaps you don't feel competent to do this; perhaps you are conscious of your own short experience. If such be the case, then bend your effort toward getting the newcomer into contact with a club; advise him of yachting authority safety regulations; point out the commonsense of sailing in company in organised events with a patrol boat at hand.

The Heron is a wonderful little boat for very many purposes.

And here I again emphasise the many purposes to which the Heron may be put.

I do not decry the value of the boat as a means for enjoying competitive sailing but I am concerned at the emphasis which is put on racing - racing with the desire to win every time. To my mind the excellent racing which can be had in the Heron stems directly from the ONE DESIGN idea - the idea which says that all boats in the fleet should be as alike in performance as it is possible to make them - so that the competition is crew against crew, on equal footing not bank book against bank book.

I go out of my way to bring this matter to the fore, for three of the motions to be put before you later this evening seem to me to arise directly out of an unhealthy emphasis on the "Win-at-all-costs" concept.

Firstly there is the move to delete a rule devoted to obviating at least some of the risks inherent in sailing small boats in the large fleets which the Heron supplies. I reiterate that the Capsize Rule has a very definite place in the thinking and responsibility of your Association.

The second motion seeks to re-open the matter of windows in sails; here again there is the element of "concentrate on speed"; a window will let me spend a greater proportion of my time and effort in sailing the boat and require less effort from me in keeping a proper lookout. Of course I have to keep the look out because my crew is so young and inexperienced that he can't be trusted to keep a look out. I can't carry a bigger crew who would keep a look out because then I'd have less chance of getting the gun at the finish."

The third motion seeks to raise the cost of sails at a time when it is possible to buy a suit for less than the price set out in the Association rules. Why the motion then? Because the "best" sailmakers, the chaps who have a reputation for making good sails (because they sell their sails to good helmsmen in most cases!) would like a bigger profit margin. Make no mistake, the ceiling price quite rapidly becomes the minimum price too, so that the "cheap" suit will very soon be $20 dearer. And what prompts this motion? Why the idea that, if I have a suit from the best sailmaker, I will have an advantage over the chap who buys an "ordinary" suit, and therefore I will have much more chance of winning.

Where does this fit in with the ONE DESIGN concept?

Where indeed?

Of course there are other WAYS IN WHICH THE ONE DESIGN concept is being bypassed and denied by the "win-at-all-costs" group.

How many of you have seen the chap who has two or three suits of sails? This chap - who really wants to clean up in the big time will use his new full suit on the light days, an older, or possibly a specially cut flatish suit on moderate days but he wont risk either suit when its really blowing and survival will be the order of the day!

Of course our man with a wardrobe of sails has his mates who have stiff spars for the light days and another bendy set for the day which looks like being rugged and where, if he is to win, it will be necessary to be able to spill wind he can't use with his light crew.

I put it to you that these are the things which need to be watched; our boats are measured with one set of spars, one suit of sails, one hull, centreboard, rudder and fittings. Our boats must be re-measured so the rules lay down, upon replacement of sails or repair of extensive damage to the hull. For sure, spars are not mentioned. But Rule 2 lists as the first objective "encouragement of the growth of the class as a ONE DESIGN" and Rule 11 INTERPRETATION calls for the rules to be read in their spirit, rather than their letter.

Surely the spirit of the class is for boats of equal performance. Surely the spirit of the majority is for no crew to have advantages other than those with which they were born or which they have gained by patient study of the art of sailing and by their hours of experience on the water.

To this time I have not entered the lists on the subject of glass reinforced plastic Herons.

Protagonists of the idea have put before you in the Heron Newsletter the undoubted advantage of a "fibreglass" hull as against timber from the maintenance angle.

Opponents of the material have sounded off about the beauty of plywood, the need to keep the boat in a form which the amateur can build, and so on:

I can sum up my view in one sentence, and with one proviso:
The glass reinforced Plastic Heron will not harm the class and should, I feel, be accepted by this Association PROVIDED the performance of the G.R.P. hull is similar to that of the timber hull built to plan and tolerance.

The proviso is, of course, the rub. There must, I believe be no move to accept the G.R.P. Heron until the Association has been able to see and, through its members, to test the G.R.P. Hull.

However, with the acceptance of the material by the parent Association in the U.K., it appears to me to be merely a matter of time before one (or I hope more than one) manufacturer takes up the idea and produces a hull acceptable by our standards.

Another move by the U.K. Association could have a bearing on next years Annual General Meeting - this is the adoption of a narrow, deep form of rudder blade. It is clear to me that, if this Association moves to accept the new blade (and I believe this blade will make the boat more stable off the wind and therefore I subscribe to its adoption) then, in keeping with the ONE DESIGN concept, all boats in the fleet must be so equipped to gain an "A" class certificate.

I trust that events later in this meeting will not make it necessary to speak again on these topics but I make this my plea to you, I make this my platform

Maintain the spirit and the letter of the ONE DESIGN concept;

Do not seek progress by modification of the boat;

Maintain a healthy spirit of competition;

Do not emphasise the "win-at-all-costs" view point and practices;

Maintain the Heron as she is, a friendly little Tub.

Do not make her a red hot racing machine which she can never be.

Maintain a balanced view on the Heron's role as an introductory class, a family sailer, a holiday boat, a boat which can be raced.

Do not set her out of the reach of her real market by unnecessary, undesirable, unfair, unsportsmanlike "refinements".

W. J. YOULL
President

5th May, 1969.

11TH ANNUAL GENERAL MEETING

The 11th A.G.M. was held at the Cruising Yacht Club, Sydney on 5th May with a good attendance of 74 members and an even better attendance of 445 apologies and proxies. The controversial matters to be resolved probably brought this about but the stickiest of them all - THE CAPSIZE RULE - truly capsized and is to be brought up again (details below).

The minutes of the previous A.G.M. were confirmed and Bill Youll's Presidential report presented and carried. The financial report - put forward by Arthur Clapham - shows a healthy state of affairs. Both it and Bill Youll's report are given in detail in this Newsletter.

Officers were elected for the coming season. Their names grace (?) Page 1 of this issue. Mr. Ron Dorling was again elected as Honorary Auditor.

Motions on Notice.

(a) Life membership for Marshall Hawes. Unanimous from the floor and proxies 412 for and 7 against. A story here though. The President pointed out that the 7 dissenters had probably been misled by a printing error in the "pros and cons" which had urged members to vote against "motion (b)" instead of "motion (d)". So Marshall Hawes joins that august band.

(b) Rule 24 SAILS. (1st Paragraph) Delete the Sum of $70 and Substitute in lieu thereof the sum of $90. Fred Edwards and others waxed eloquent here and the floor of the meeting supported them to the tune of 48 to 5. The proxies, who didn't have the benefit of their eloquence, still supported the motion by 270 for to 71 against.

(c) Deletion of the Capsize Rule.

"Sir Ralph the Rover tore his hair;
He curst himself in his despair;
The waves rushed in on every side,
The ship is sinking, beneath the tide."

(The Inchcape Rock by Robert Southey 1774-1843)

Discussion on this motion looked like being long and interesting. John Shipton (for the motion) well balanced Bill Youll's efforts against. Other speakers were clearing their throats and preparing to join the fray when Greig McTiernan confused the whole issue with facts. He pointed out (with no less an authority than Joskie's "The Law and Procedure of Meetings" as his support) that, in his opinion, the special printed arguments sent to members along with the Notice of Meeting included comprehensive notes in rebuttal of the proposal but nothing in support. These notes were in fact in reply to John Shipton's letter in the March 1969 issue of the Newsletter. In it, he had put forward seven reasons as to why the rule should be deleted.

It was considered that as the arguments for and against were printed separately, members, especially those voting by proxy, could have been mislead.

The Chairman accepted the point of order and a motion "That this motion be deferred to another time and another place so that it can be properly ventilated with arguments for and against presented at the same time" was carried.

The Chairman advised that all proxies for the motion became void.

So it's still with us. Sharpen those pencils and get out the throat lozenges. The battle is still to be fought. It will be rejoined at a Special General Meeting of the Association at the Cruising Yacht Club at 8 p.m. on Thursday September 11th. Keep an eye on the post for further information on this meeting.

(d) Allowance of windows in Jibs. Chris Lloyd-Owen tried hard to get this one through and was in fact able to convince the floor that it was the right thing to do. They supported it by 30 to 16 but the proxies, who had not had the benefits of Chris's description of the lurid accident he had seen in which two feet or so of racing shell had pierced a sailor's leg during a collision, voted against by 239 to 115. In total, the motion was thus defeated.

General Business.

(a) The Management Committee had voted for the 13th Annual Championships to be held in Brisbane, Queensland.

(b) A pleasing duty fell to the Chairman in making a presentation to the retiring Assistant Secretary, Mrs. Edna Barrett for a job very well done.

The meeting closed at 9.55 after which we saw the Association's film "How to build a Heron" (Mine certainly did not proceed as smoothly as John Shipton's did in the film. Ed.) and a film covering the 10th National titles at Woollahra.

The Chairman pointed out that Rothman's National Sports Foundation had agreed to meet the cost of six copies of the film and distribution of these would be handled by the State secretaries.

RULES – BY RAFFERTY

The Place	-	The wing mark
The Event	-	A race during the Lake Macquarie (N.S.W.) Heron Weekend, 1969.

Overheard, from one of the newer Heron skippers, after he had caused considerable confusion and near collisions amongst a tight bunch of boats bringing up the rear of the fleet, by unexpectedly and illegally cutting closely across their bows -

"But, gee! My crew did indicate we were turning. Didn't you see him put his left hand out."

LETTER TO THE EDITOR, HERON NEWSLETTER

Dear Sir,

Arising from our Annual General Meeting are some points which, I felt, should be aired in the Heron Newsletter.

One feature of the meeting was the large number of proxy votes. This is very good. It shows that a good proportion of Heron owners refuse to be dictated to by the comparatively small number who can attend the A.G.M. This is how it should be.

I was, naturally, disappointed that those who sail in such open waters as Port Phillip and the Gulf would not give me permission to put a window in my jib. I am sure that they have simply no conception of the conditions under which some of us sail -- Saturday afternoon dodging rowing shells on the confines of the Parramatta River, Sunday on Middle Harbour together with perhaps a thousand other boats from sailing dingies to ocean racers, from fishermen with hired outboards to bullying pleasure ferries, all in an area a couple of miles long by half a mile wide!

But this is not the time to argue the pros and cons of windows. Nor, it is now obvious, was the A.G.M. The number of people attending this meeting is only a small proportion of the total of voters. It is apparent that, to be effective, future motions must be proposed well beforehand and fully argued in the Heron Newsletter. The present procedure seems to be that proposers, with the motion, submits some notes in favour of the motion. Notes for rebuttal may also be prepared for circulation. These notes are then presented to the majority of voters for them to make their decision. Contrast this with the normal procedure at a meeting where a number of people can express their views and the mover of the motion is given the opportunity to reply to criticisms before the motion is put.

I would suggest, if possible, arguments for and against a controvertial motion, from a number of people, should be printed and that, even when this is not possible, the mover of the motion MUST be given his right to reply, in print, to the notes in rebuttal.

The second point concerns the one-design nature of the class. One of the Heron's strengths lies in the close control of our "one-design". Yet, if classes are to survive and prosper, they must be kept up to date. Where would the Star class be to-day if it had retained its original rig with its boom as long as its mast? Certainly not at the last Olympics. The Snipe class still claims to be the largest class in the world. It is now very different in detail from the first Snipe. Yet it is perhaps an even more closely controlled one-design than the Heron.

To keep the Heron up to date we must be prepared to admit certain modifications from time to time. The President and I agree on this point. In his Presidential Address he stated that he felt that the introduction of a fibreglass Heron could do no harm to the class. I agree. He also foreshadowed his support for a deeper rudder blade now being developed in England. Good. The Heron is a beast to control off the wind in a seaway and a deeper rudder may well be the answer. It is however the President's insistence that any such change should be compulsory that upsets me. His adherence to the one-design concept is such that it would be necessary for some 2000 Heron owners throw away their rudders and obtain new ones to retain their "A" classification! He used the same argument against my motion re windows in jibs -- that if we are to have them they must be compulsory for all. I cannot subscribe to this attitude. It is a completely unwarranted financial imposition. Any alterations to the Heron must be introduced over a period of time so as to cause the least expense and inconvenience to members. This can be best achieved by making changes optional. There are plenty of precedents for optional features -- look at buoyancy for example. Even a kicking strap is optional! Anyone who has tried to sail a Heron dead square before a fresh wind with no kicking strap will tell you how essential this piece of optional equipment is! We are even considering the possibility of optional wood or fibreglass construction.

If you like, modifications can be made compulsory on new boats only, with the option of change for older boats. Or, if you like, the change can be made compulsory after say 5 years of option. Either would seem reasonable. There will be changes to be made. There must be changes if the Heron is to retain its popularity. But the changes must be made sensibily, gradually, with the minimum of inconvenience for the majority. The principle of one-design is, after all, just a guiding principle, not an inflexible law that we are bound to follow to the very letter.

CHRIS LLOYD-OWEN.

Y. W. HERON SAILING ASSOCIATION OF AUSTRALIA

SPECIAL GENERAL MEETING

Notice is hereby given that a

SPECIAL GENERAL MEETING

of this Association will be held on Wednesday of 17th September, 1969, at the Cruising Yacht Club of Australia, Beach Road, Edgecliff, N. S. W.

AGENDA

1. Apologies and admission of proxies.

2. Motions on Notice

Proposed by J.E. Shipton, Seconded by A. M. Barrett
That Rule 34 of the Constitution:
"CAPSIZING. If a boat capsizes during a race, that is, if the top of the mast touches the water, the boat is disqualified and must retire"
be deleted.

FURTHER NOTICES OF MOTION

Rule 10 (ii) states that "Any proposal for the alteration of a rule must reach the Secretary 28 days before the date of a meeting and shall be signed by the Proposer and Seconder."

The purpose of the September, 1969 Special General Meeting will be to discuss and, if thought fit, pass the motion set out in the above notice.

Those who attended the 11th Annual General Meeting, or who have read the Editor's report of it's proceedings in this issue of Heron Newsletter, will be aware of the reasons for this motion having been deferred to a Special General Meeting.

The Executive has already had informal notice of several other motions aimed at modification of some of the machinery sections of the Constitution and Rules. These motions will, if passed, make much less likely a recurrence of the series of misunderstandings and mistimings which caused Mr. McTiernan to take his point of order at the Annual General Meeting.

The motions will provide for enough notice to be given of Motions for Rule Changes to enable argument for and against such motions to be put to the membership and allow the membership to give considered decisions.

Formal notice of all Special General Meeting motions will be forwarded to members later this year, with, where required argument for and against - AT THE SAME TIME!

12TH NATIONAL CHAMPIONSHIPS
HOBART – JANUARY 1971

TRANSPORT ARRANGEMENTS

A. FROM SYDNEY.

Confirmed bookings on the "Empress of Australia", the vessel catering for those who wish to attend the 12th National Heron Titles in Tasmania in late December, 1970, are being accepted from the end of June. Have you given any thought to this matter; if not, it is suggested that you read the following and do not hesitate to act promptly.

There is no restriction to the number of cars carrying Herons on top which can be booked on the "Empress", unlike her sister ship the "Princess" which has very limited space for cars so loaded.

Fares for boat and car are as follows:-

Length of car, 11' to 13'6" - $84 (special tourist return concession)
13'6" to 15'6" - $96 " " " "
Over 15'6" - $108 " " " "

4 Berth Cabin - $37 per person, each way (all meals inclusive)
Children under 4 years, no charge.
Children 4 to 15 years, half fare.
15 to 19 years (students), 1/3rd off full fare.
The Company requires certificate to be signed by a school official.
19 to 21 years (student) 10% off full fare with the same requisite.

2 Berth Cabin - $41 per person each way.

A printed timetable is not available as yet, but the Association has been advised that, in all probability, the "Empress" will be leaving Sydney on Saturday, 26th December at 9 p.m. arriving in Hobart on Monday, 28th December at 10 a.m.

If the date of sailing is not suitable to your needs, the Company has indicated its willingness to refund deposits.

If you have even the slightest intention of attending the 12th series contact either the Union Steamship Co. or the Tasmanian Tourist Bureau immediately and advise that you are a Heron Association member.

B. FROM MELBOURNE.

Initial inquiries have produced the following -

The "Seaway Queen" or "Seaway King" from Melbourne to Hobart direct. At this time of year under deck stowage cannot be guaranteed for a large number of boats - balance or all would be carried on deck. The boats could travel on trailers for no extra charge (Trailers would make it easier to transport the Herons from Hobart terminal to Sandy Bay Yacht Club). Freight charge is $1.16 per square foot each way. Provided all the Herons did not come back at the same time, there is a concession for Sailing Championships and boats return freight free. Cost is in the region of $65.00 return.

Cartopping on the "Bass Trader" or "Princess of Tasmania" is very unpopular. Reason is that the additional height of this method does not allow the cars to be stowed in the car decks. They have to go in the semi-trailer space.

Car plus trailed boat is expensive - about twice an ordinary car.

Both car topping and car plus trailed boat need very early booking - at least by July/August this year.

Semi trailers on "Bass Trader" (Melbourne to Devonport by ship and then by road) at $500 return a semi-trailer. Without special frames only 9 boats can be carried. With these frames or cradles about 25 boats can be fitted on a semi-trailer. A problem is that timings to/from will be decided by the transport people and members could be without boats for several weeks. Supervision of loading and unloading will have to be a State Association matter. South Australia may have to organise their own trailers.

"Seaway Queen", "Seaway King" and "Bass Trader" are NOT passenger ships. Those who send boats on these vessels would have to find other transport - flying or other (passenger) vessels.

The Series is to start in Hobart on Saturday 1st January 1971 and will continue for five days. This will give all those competing an opportunity to do some sight seeing before and after the event.

ITS LATER THAN YOU THINK!
IF YOU ARE THINKING OF SAILING IN THE
12TH NATIONALS YOU WILL HAVE TO MOVE

NOW!!!

P.S.

A late phone call from Tom Tucker to tell us that the Princess of Tasmania leaves Melbourne at 7.30 p.m. on Monday, Wednesday and Fridays. A four berth cabin costs $24 per person return.

The Australian Trader leaves Melbourne at 7.30 p.m. on Tuesdays, Thursdays and Saturdays. A four berth cabin on her costs $30 per person return.

Transport costs for a late model Holden are $52 return PLUS $70 return for a trailed trailer.

President of A.Y.F., Mr. Ernest Merrington, presents Silver Heron to Mike Fletcher, winner of 10th National Championships, while N.S.W. President, Alan Crane, looks on.

THE ACCREDITED BUILDER SCHEME

The Heron is so designed as to be very suitable for amateur construction but the Association realises that there are a number of potential Heron owners who, for lack of time, space, tools and so on are unable to build their own boat. To assist these folk, the Association has set up an "Accredited Builder Scheme."

Under this Scheme, the Builder undertakes to guarantee that his product will measure to Association Standards for "A" class certificate and to honour certain other obligations in respect of payment of Royalties. In turn, the Association undertakes to recommend the Builder to enquirers for ready built Heron class yachts. The names and addresses of the Builders who have subscribed to the Scheme are listed below. You will note that the list is alphabetical - the Association is not prepared to recommend one builder in preference to any other.

The Builders do vary to some extent in price, delivery time, degree of finish, quality of fittings and rigging. Some are "craftsmen" in a small way of business, others produce several boats at a time. The intending purchaser is advised to enquire of several Builders and preferably inspect some completed boats before placing an order. Check whether the price includes buoyancy equipment and the optional extras or modifications (washboards, wide rubbing strips, kicking straps, toe straps, extra main sheet blocks, jamb-cleats, etc.) which are permitted under the Rules of the Association. Most of the Builders will supply on the basis of hull only, hull and spars, hull and spars painted, as well as fully rigged, ready for the water. You may be able to save a few pounds by being your own brush hand.

Practically all the recognised Australian Sailmakers cut Heron Suits these days, and you may find it worthwhile to purchase sails separately. English suits can be imported at competitive prices but, if you do strike a faulty one you can't be on the English maker's doorstep on Monday morning.

List of Accredited Builders -

A.C. Barclay, Patawalonga Frontage, North Glenelg. S.A.	95-7263
E. Beer, 2 St.Georges Road, New Lambton. N.S.W.	
Binks Yacht Constructions, 29 Byre Ave., Somerton Park.	
J. Botterill, 4 Desmond Ave., Highett. Vic.	95-2448
C.W.A. Burns, 9 Prescott Avenue, Dee Why, N.S.W.	98-7431
J. Holtum, 14 Foss Street, Hunters Hill, N.S.W.	89-4603
Hunt's Marine, 629 Princes Highway, Blakehurst, N.S.W.	
P. Korte, 23 Valley View Drive, Highbury, S.A.	
R. Pollock, 68 Forestway, Frenchs Forest, N.S.W.	
K. Skinner, 198 Craig St., Nth. Rockhampton, Qld. Rhmpt.	7582
G. Wyllie, 12 Murray Street, Marrickville, N.S.W.	
Pamcraft, P.O. Box 207, Lane Cove, N.S.W.	42-7330
Randall & Baines, Box 78 P.O., Glen Waverley, Vic. 3150.	
H.G. Lang, Main Street, Sorrento, Vic.	4-2474

REIMBURSEMENT FOR DAMAGE TO VOLUNTEER BOAT IN WESTERN AUSTRALIA

The Executive Committee of the Association decided, during a meeting in May, to reimburse the Western Australian Association for $27.14 incurred in repairing damages suffered by a volunteer pick-up boat when serving the Heron fleet in the W.A. Championships. No insurance had been taken out by the W.A. Association and unauthorised tampering with the boat controls led to the accident.

Although payment was agreed to in this case it was as an "ex gratia" amount. The Australian Association regards such incidents as wholly within the jurisdiction of the States or even clubs concerned and earnestly suggests that an insurance cover be obtained where there is any possibility of being confronted by similar claims. It is unlikely that they will be met sympathetically in the future. So to all you people who have these responsibilities, please remember that events entirely beyond your immediate control can result in claims for substantial damages. Keep one step ahead of them.

ENSURE TO INSURE

D. Wise, 7265 S.A., leads A. Clarke, 6452 N.S.W., (2nd overall) and I. Cook, 6223 N.S.W. to the leeward mark during a heat of the 10th National Championships.

There is a rounding mark in there somewhere and someone(s) has failed to allow buoy-room. You do not have to be near the lead to have your share of incidents during National Championships.

LEARNING FROM THE OTHER FELLOW (No. 7)

Dear Editor,

The receipt of your excellent newsletter prompts me, as a relative outsider, to make a few comments which you may use or discard as you see fit. Let me first say as one who has participated in and helped organize a number of major events in other classes and who realizes the snares and pitfalls attached thereto, that the organization of the 10th National Championships was superb. From Bill Youll's speech of welcome, which characterized the whole proceedings to Warren Clarke's excellent photographs the series was a credit to Woollahra Club and the Heron Association.

About that bendy mast - purely inadvertent, I assure you. Actually I suffer from a neurotic compulsion to tighten things on boats and just kept bouncing the forestay unaware of the resultant mast compression until out on the course, where each go-about was accompanied by an alarming "thunk" as the mast changed bends. A bit of research on the beach at lunch time among the other boats showed me the error of my ways as nobody else's forestay hit high 'C' when plucked. A judicious loosening solved the problem and probably saved Norm Blacker's mast! I think the boat went better too.

Talking about boatspeed, perhaps my impressions of the effects of excess weight might be of interest. An all up weight of approx. 450 lb. (boat 170 lb., crew 280 lb.) affected performance thus :- (vis-a-vis nearby boats)

Light Winds.

1. To windward - relative gain.
2. Reaching - very slight loss.
3. Square running - no perceptible loss.

Moderate Winds.

1. To windward - relative gain.
2. Reaching - considerable loss.
3. Square running - very slight loss.

Fresh Winds.

1. To windward - slight loss (surprising!).
2. Reach - very considerable loss.
3. Square running - no perceptible loss.

The significance of this appears to be that excessive weight is of no great moment except when reaching in fresh winds. In the Double Bay Invitation in winds gusting to 20 knots young Ridgeway made up 1 min. 30 sec. on one reach but made no further impression on the subsequent square run. Therefore let the owner of a heavy boat or a portly physique take heart and not be distracted by this factor in normal conditions. Should he not find his way around the course as fast as other boats he should seek the reason in the following factors :-

1. Boat Speed.
   (a) Sails, hull preparation and tuning the rig.
   (b) Helmsmanship.

2. Wind Shifts and Tactics.

Most sailing men, I note, tend to seek the answer in (1) whereas the key to fast Heron sailing lies mainly in (2). Many pleasurable hours are spent ashore discussing the divers aspects of winning races but most of this discussion invariably centres on sails, gadgets, adjustments and the like, while very little mention is made of the use of windshifts. For high powered craft such as Flying Dutchmen, tuning is of vital importance but as the power of a boat decreases so does the importance of this factor. Helmsmanship of course is important but does not vary from person to person as much as is commonly thought. In fact there is often very little difference in a group of skippers' ability to hold, say, an optimal course to windward. You notice a number of Herons in clear, steady air on the same tack and they all move at roughly the same pace. However when they split tacks for a few minutes and come together again the differences in position are much too great to be accounted for by varying degrees of skill in steering a course. The answer of course lies in the use each helmsman has made of those subtle variations in the direction and strength of the breeze called windshifts.

It would seem then that the panacea of for all ailing helmsmen lies in the correct use of these windshifts but unfortunately the answer is not so simple as the subject of windshifts is a very complex one indeed, much more subtle than the generally held belief that it is sufficient to tack on every header.

For a detailed discussion one can do no better than recommend Alan Watts' "Wind and Sailing Boats" or Stewart Walker's "Techniques of Small Boat Sailing".

At the risk of boring you to death perhaps I might illustrate my point by describing a plan for the start and first beat of a race with a large number of starters, such as in the National Championships. The plan presupposes well laid starting lines with a slight favourable leeward end bias, such as those laid by Henry Arthur at the Nationals. As the Invitation race showed most of us, a good start in clear wind is absolutely essential, the problem being how to achieve this consistently. With a well laid line the leeward end is always very crowded with a high proportion of experts in the group, while the starter's boat end is equally congested with the more conservative types, thus leaving the middle section relatively less populous. If, like me, you are not confident of your boatspeed or your ability to be the one boat to get the prime position at the leeward end (usually Mike Fletcher) then the middle is the place to start.

At the 5 minute gun you should be near the starter's boat but well to windward with sheets eased on starboard tack. Spend the next 4 minutes slowly drifting while carefully watching all the other ants scurrying back and forth. At 1 minute to go the pattern of the start will begin to emerge and the clearest part of the line will become apparent. With clear wind, manoeuvreability and reaching speed it is quite simple to pop into the clearest bit of water, haul on sheets and off with full boat speed. If this is done properly there should be plenty of water between you and the nearest boats, both to windward and to leeward. This is vital as the whole subsequent plan depends on your being able to go-about at will and not be hemmed in when the first header arrives. Sail hard and perhaps a shade free to make sure of breaking free and tack as soon as you get the first definite header. This immediately puts you ahead of all the boats that started to starboard of you and of course theoretically puts you behind all those boats to port (where all the experts are) but as things are pretty tense and crowded down there very few of them can tack immediately as they would have wished and hence will lose their advantage a little later when the wind shifts back the other way as it almost invariably does.

Now you are sailing in clear air, in phase with the windshifts and eagerly looking for the next header which should be tacked upon immediately. If this subsequent port hand lift holds then you are in business and should cross the port hand start experts. If it doesn't, again tack straight away to leeward and ahead of these boats and await the next header. Never hold on into a header in these circumstances, if you can't get into the windward and ahead position then the leeward and ahead spot is by far the next beat. Here one gets most benefit from headers and these should be earnestly sought. If they dont come all you can do is grit your teeth and just hang on until one comes, which almost always happens sooner or later. By this means you can gradually work back to the centre of the course and you must be in the first ten around the windward mark, unless there has been a drastic one way breeze change during the beat. This isn't too bad in a fleet of 90 odd and remember it all results primarily from the start as described and the first go-about. This first gain of 10 to 20 yards becomes minutes at the windward mark, simply because you are in phase and can tack at will whereas the great majority of the fleet are perpetually in somebody's dirty wind and are often forced to tack at the least desirable time. It is not because of boatspeed or pure helmsmanship that the fleet is spread out over a span of 7 minutes or so at the windward mark it is because some went the right way while many did not. Incidently if the wind is a very shifty one it pays to sail fast and free rather than high and a little slower. Provided you are in phase with the shifts this will enable you to get to the next windshift sooner.

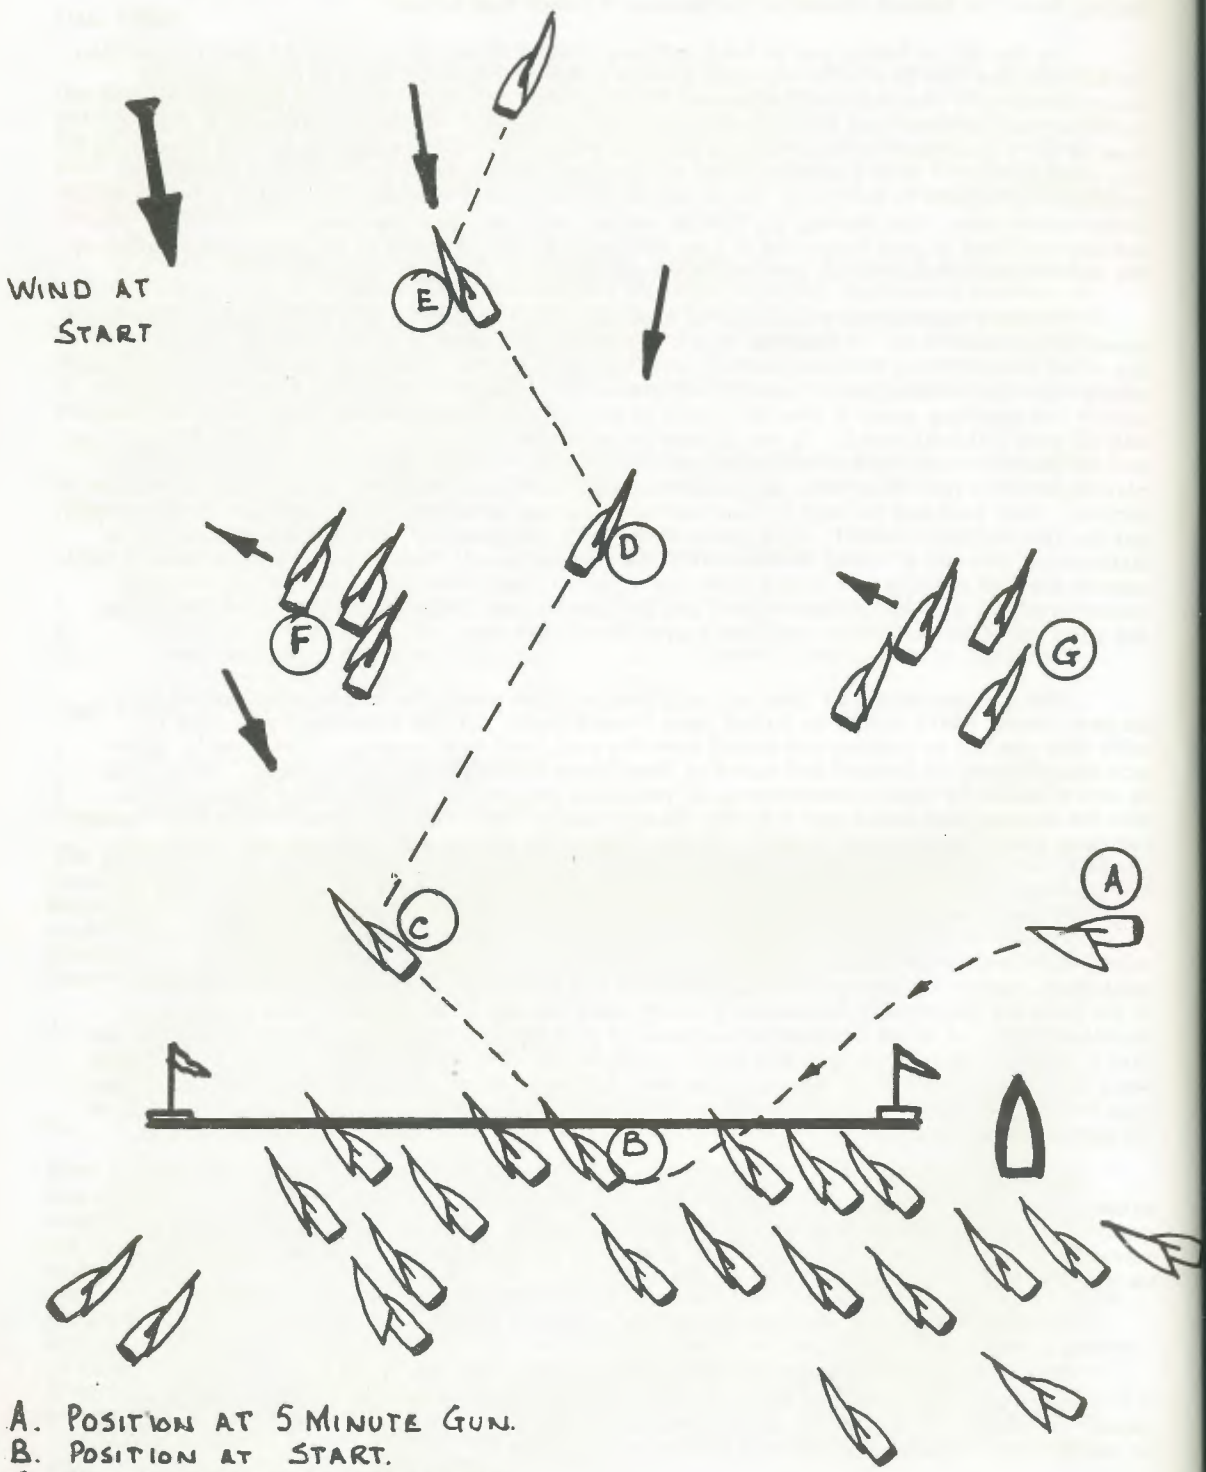
So when brooding over our mistakes in each and every race (and this should be done ad nauseum) we should dwell on the reasons why Joe Blow crossed us by miles half way up the first work rather than on whether our jib luff tension was right or the mainsail outhaul position was correct. Tuning discussions are good fun, but let us get them in their right perspective so that we can confidently agree with the bloke who said:-

"this above all, to thine own self be true ....."

The technique of starting from the windward side of the line is not at all difficult, nor is it as dicey as it looks, mainly because of the mobility granted by clear wind and reaching speed. It cannot, of course, be used successfully if the starter's boat end is favoured and should be treated with caution when the 'one minute rule' applies.

ALAN CLARK

(Alan Clark was placed second in the 1967 Annual Championship sailed at Woollahra Sailing Club, Sydney. - Ed.)



A. Position at 5 Minute Gun.
B. Position at Start.
C. First definite header.
D. Second definite header.
E. Third header after very short lift.
F. Position of leading port end starters when you are at D.
G. Position of leading starboard end starters when you are at D

CASE STUDIES OF PROTEST HEARINGS

HAD ANY GOOD PROTESTS LATELY?

One of the best ways of learning some of the finer points of the Racing Rules is to become involved in a protest. A less painful way is to read about other peoples' protests. We would like to give you all the opportunity to do this. So, if any interesting protests occur in your Club, send us in details so that all can benefit. If you prefer, names can be left out and boats can be given the romantic titles of "A", "B", "C", etc. The villain of our first incident however has no bashful tendencies so we now present :-

The Case of "Rufus" vs. The Race Committee.

This case took place during the first heat of Concord-Ryde Sailing Clubs' Championship series. The facts, as found by the Protest Committee, were as follows :-

Rufus was going to windward on the starboard tack on a short final work before the broad reach to the finish. A Skate, reaching on port tack, approached Rufus. Rufus hailed to the Skate to keep clear and the Skate bore away to pass to leeward of Rufus. However, the end of the Skate's swinging plank caught in the lee stay of Rufus, causing her mast to break. Rufus had led for the entire race and was 150 to 400 yards (depending on which witness) in the lead.

Rufus protested as a "yacht unduly prejudiced" under rule 12 which states :-
"When the race committee decides that, through no fault of her own, the finishing position of a yacht has been materially prejudiced --- by being disabled by another yacht which should have kept clear --- it may cancel or abandon the race or make such other arrangements as it deems equitable".

Further to the protest, "Rufus" also requested that the committee should use its powers under rule 12 to allot "Rufus" points for finishing first in the race. The grounds for this request were as follows :-

1. The race was 85% completed.
2. 90% of all windward work was completed and "Rufus" had increased her lead on all previous leeward legs.
3. If the incident had not occurred, "Rufus" would have had an almost certain win.
4. The conditions on the day set down for the 1st Heat of the Club Championship were those in which "Rufus" is very fast - a fact well known in the Club. If a resail were ordered, it could well be held in conditions quite unsuited to "Rufus".

The result of all this was that the Protest Committee upheld the protest by "Rufus" and deemed it equitable to allot "Rufus" the points for finishing first in the race.

Not surprisingly, this decision was not received with enthusiasm by all members, not because they disliked being beaten in this way, but because some of them felt that the Committee had made a wrong decision. One member in fact attempted to submit an appeal to Y.A. He felt that "a dangerous precedent had been established in the granting of points on the assumption that the leader of a race 85% completed would, with certainty, win the event." He felt that there was always the possibility of gear failure, touching the remaining mark, rule infringements or capsize.

This appeal was not allowed as the member was not involved in the original protest.

Everyone, including the Protest Committee and the skipper of "Rufus" was left with just that little doubt as to whether the decision had been quite correct, so the Protest Committee decided to refer the protest to Y.A. at its own instance under rule 77. 2(a) i.e. the Protest Committee submitted an appeal to Y.A. for confirmation or otherwise of its action.

The Appeals Committee of Y.A. duly met to consider the matter and gave the following decision :-

"When a Race Committee decides that a yacht is entitled to relief under Rule 12 in respect of one race in a series, the most usual arrangement is to award her points equal to the average of those gained in her best 5 races of a 7 race series, or her best 3 races of a 5 race series.

However, this action is not mandatory and Rule 12 requires the Race Committee to make such arrangements as it deems equitable.

The Race Committee, being the sole arbiter of fact, is best placed to weigh up all the circumstances of a particular case and to determine what arrangement is most equitable in the light of its knowledge of conditions on the day in question, the capabilities of the helmsman involved and other relevant factors.

Bearing these matters in mind, we would not consider the arrangement made to be inappropriate in this instance and the Race Committee's action is therefore endorsed."

So there you have it. This may well be of use in helping your Committee sort out a similar protest at some future date.

Footnote: It didn't do "Rufus" much good anyhow. This was the only heat held in the brisk north-easter she loves and her final placing in the series was third.

Post Script

Since the above was written the decision on an appeal in England has come to hand (I.Y.R.U. case No. 38). This case also involved Rule 12 and the concluding remarks on the Council's decision are worth quoting.

"A race committee's action under rule 12 is not confined to cancelling or abandoning a race and ordering a re-sail. Before deciding to cancel or abandon a race, it is important that the race committee should consider whether it can make "such other arrangements as it deems equitable" to all the yachts in the race. To cancel or abandon a race merely because one yacht at the rear of the race justifiably seeks redress from the race committee might be most inequitable to all the other yachts.

Depending upon the circumstances, "such other arrangements" could, in appropriate conditions, include the following:

(a) To arrange a sail-off between the prejudiced yacht and those which at that time were ahead of or close to her, if they could be identified.
(b) To award the prejudiced yacht break-down points.
(c) If the incident occurred close enough to the finishing line for the race committee to determine with some certainty her probable finishing position, to award her the points she would have obtained had she finished in that position.
(d) In accordance with the Olympic Scoring System, Addendum G, 1967. 68 R.Y.A. Yacht Racing Supplement, page 113, penultimate paragraph, to award her points for the race equal to the average points, to the nearest tenth of a point, of her best five races."

N.S.W. NOTES

Main events in N.S.W. since the last Newsletter have included the Middle Harbour Regatta, the A.C.T. Championship, Lake Macquarie Heron Holiday and the Middle Harbour Marathon.

Middle Harbour Regatta is a magnificent spectacle with literally hundreds and hundreds of sailing craft from eight feet long to eighty (well, fifty anyhow!) attempting to race on intersecting courses, rounding nearby buoys in different directions and all converging on Middle Harbour Yacht Club for the finish. The weather this year could have been described as "brisk" (it could also have been described as "wet", "awful","gusty", "variable", "unpleasant" and other things) but it was all good fun. Results, for what they are worth, are as follows:

Saturday	4835	E. Hart
	7000	J. Shipton
	5350	C. Brennan
Sunday	3630	E. Freizier
	5763	Mrs. J. Lawson
	7041	J. Cole

A.C.T. HERON CHAMPIONSHIP

These were held on Lake Burley Griffin over the week-end 29th and 30th of March.

Considerable interest was shown in this year's events with 36 entries. There were eight from Nowra, one from Wagga, five from the Sydney area, and 22 from Canberra. We had 34 yachts start in each heat, having one local and one visitor who could not make it.

The sailing on Saturday would have made a saint swear with the frustration of light flukey winds and rain showers, which varied from light to a downpour.

We think the winner of the first two heats (George Early of Connells' Point Sailing Club, Sydney, in 7366 Mischief) must have brought his own wind. His margin over everyone else had a touch of magic or genius in it.

However, from a light changeable wind on Sunday morning's heat, we went to a good strong variable blow in the afternoon which was quite exhilerating and was welcomed and enjoyed by all concerned.

The visitors "cleaned us up" taking First (George Early) and Second (D.J. Ray, Nowra, in 3925 Fiesta). Third place went to one of our Juniors (Debbie Cramp in 6747 Citronella). This is a very good thing for our souls we feel and will spur us on to (we hope) better things next time.

The Monaro Shield teams event was contested by H. Black, D. Cramp, R. Davies, C. Pratt, and P. Carnall representing Canberra, and J. Aney, D. Ray, G. Francis, J. Harper, and G. Meacham representing Nowra. The Canberra Team had previously won the first heat held at Nowra earlier in the season and another win during the Championship events clinched the Shield for this area for another season.

Taken all in all we feel that the event was highly successful and look forward to an even bigger roll up and better event next year.

LAKE MACQUARIE HERON HOLIDAY

As usual, a friendly family holiday week-end, hosted by the Lake Macquarie Yacht Club. This year however the weather made it a little less delightful than usual. Light winds and rain rather spoilt the racing conditions although the actual racing was of course as keen as ever.

Saturday morning's Invitation Race for the early arrivals set the pattern - a light breeze and a shortened course. Local John Reid (5685) led the way home with handicap results:-

1st	5769	P. Caruthers
2nd	7451	A. Hart
3rd	6416	M. Bailey

In the afternoon a light but fairly steady breeze enlivened half way through the race by an absolute downpour. Results:-

1st	5769	L. Collins
2nd	6600	B. Rabbidge
3rd	5350	C. Brennan
Fastest:	5120	L. Collins

A very wet social evening followed.

Sunday at least started without rain, with a nice breeze and a forecast of freshening conditions. Before long however crews were sitting steaming in their spray jackets under a hot sun with no wind at all (no wind? then how come Chris Lloyd-Owen, John Shipton and Frank Allen managed to round that buoy when they did?). Only a few boats finished a drastically shortened course.

1st	6464	C. Lloyd-Owen
2nd	5091	A. Toll
3rd	3921	F. Allen
Fastest:	3921	F. Allen

The afternoon produced perhaps the best racing of the week-end. The breeze was adequate and fairly steady. The result was some good, close racing of the sort one would expect from a one-design class. The last beat to windward saw some half dozen boats crossing tacks, blanketing each other and generally behaving in an unfriendly manner. It all finished with John Reid in front. John Reid had already won his trophy so the "first home" trophy went to 7000 J. Shipton. Handicap results:

1st	4815	C. Hulton
2nd	5922	M. Longworth
3rd	7082	A. Sykes.

Hard luck stories:- John Shipton, always a bridesmaid, never a bride, was second home in three races. Charles Grimwood, working Saturday, caught in the middle of the calm Sunday morning, in front Sunday afternoon and pulled a rounding mark onto himself. Finally all those travelling back to Sydney ran into very heavy rain again on the way home. In spite of it all, they'll be back for more next season.

THE END TO A SEASON

OR

DID YOU TAKE PART IN THE MIDDLE HARBOUR MARATHON?

The Middle Harbour H.S.C. Marathon is now a well known and established race to conclude the Club's season, being sailed usually over a course of about 15 miles in the lower and upper reaches of Middle Harbour. Not to have taken part is to have missed one of the best events in the New South Wales Heron calendar. Ask someone who has taken part for their opinion. Look what it offers. A long cruising type event through the sheltered waters of Middle Harbour. An interesting course covering this tract of water from its entrance into the main harbour back up to Killarney - near the Roseville Road Bridge - with a couple of detours into various bays. First class organisation all the way with ample pick up boats available to help the needy and of course Babs Campbell ensuring that the handicap start functions smoothly.

The Weatherman always seems to ensure that this race has everything from the steady breezes in the more open sections of the course to the flukey puffs as the boats get further towards the middle mark and traverse the bays. A heavy downpour is usually tossed in for good measure. The challenge of going under the Spit Bridge with, as usually happens, an unfavourable wind and tide. The toss up whether to remain a purist here or wield the paddle - or to choose the lower span and risk (in the few yards to be gained) leaving a racing flag adorning the bridge.

With the handicap start there is not the chaos usually associated with large fleets, and when the limit boats are on 33 minutes they seem a very long way ahead, but don't let this deter you; its a long course for the back markers. This is probably where the most enjoyment comes in, watching the fleet gradually come together, having a friendly chat with crews from other clubs in the quieter areas, taking a bit of nourishment while the miles slip by. This is Heron sailing at its best.

For this year's event, sailed early in May, about 50 boats turned up and after briefing by Commodore Frank Buckley, the procession began. The breeze was just pleasantly brisk and got everybody away to a good start. It was a bit tricky going through the Bridge and some managed it while the span was up, while the majority used the paddle. An easy work then to Long Bay after which came the long run down to Sugarloaf Bay, giving ample time to consume some of the refreshments most boats carried. The Sugarloaf Bay mark must have been laid by some sadistic power boat operator in view of its placement: no wind, a heavy shower and an outgoing tide. However, eventually everybody got round and headed for Killarney. By this, the mid point of the event, the boats were beginning to come together. Then out into the main stream once again with a beat back to Long Bay - the wind a bit stronger and the work a good one. No detour into Sugarloaf this time. After Long Bay, through the Spit Bridge again and the final work to Middle Head. In this work most of the fleet were mixed up in a substantial rain squall which really livened things up for a while. It was exasperatingly followed by fitful winds for the final run back to Clontarf and the welcome afternoon tea.

If you haven't taken part in this annual event you haven't lived, so next season make this a must. Remember, Middle Harbour Club, where Heron sailing began in Australia, is always pleased to see visitors.

(By Jim Street, 6250, Native II who managed to outdrift, outsail, outdrench and outlast the other entrants to win this year's event. Also, like the other entrants, he was unable to walk properly for a day or two after. Ed.)

RICHMOND RIVER SAILING CLUB

Ivan Bathgate reports that Herons are going well with the Richmond River Sailing Club. In March they sailed 7 of the fleet some 40 to 50 miles down the Richmond from Coraki to Ballina - single handed with sleeping bags, food and liquid refreshments for ballast.

It was apparently quite a weekend.

SOUTH QUEENSLAND NEWS

Correspondents.
Georgina Pickers and Alan Robinson

A successful South Queensland Championship regatta was held at Woody Point over the Anzac Day Week-end.

The Humpybong Club organized everything to everyones satisfaction from the actual racing to the Social events.

An invitation race was held on Friday Afternoon and three championship heats on Saturday morning, Saturday afternoon and Sunday morning. Boats from Humpybong, Cleveland and Maryborough competed with fifteen craft in each race although not necessarily the same fifteen.

The weather was perfect though the breezes were light. It was made a condition of the racing that the placegetters in the Championship were ineligible for the Handicap trophies in conjunction with the championship heats. This was designed to obtain the greatest possible distribution of trophies for the series.

Results were :-

Championship :	1st	3674	PEPITA	Bob Campbell	
	2nd	4868	HELGA	Harry Nilsson	
	3rd	6155	DUSTY	Paul Miller	
Handicap :	Invitation Race		7469	JEP	Ruth Shand
	1st Heat Champ.		6475	DIJIRIDI	Dave Morwood
	2nd Heat Champ.		5947	HEATHER LYNN	Peter Robinson
	3rd Heat Champ.		6210	SEA IMP	Sue Roberts

The item of the moment is the recent South Queensland Championships held on the Humpybong Yacht Club's Woody Point course over Anzac Day weekend. The programme comprised an invitation race for orientation purposes on Friday afternoon and three championship heats on Saturday morning and afternoon and Sunday morning.

The weather was perfect but the breezes were a little light for some. Fifteen starters from Humpybong, Cleveland and Maryborough faced the starter and were despatched over a triangular course in an almost perfect start. Dusty (6155) with Paul Miller at the helm soon showed out and was not headed. However, Paul repeated a previous effort and endeavoured to finish at the Pier head rather than the finishing boat and the race was snatched by Keith Shand in Jep (7469). Title holder Lex Aravandino in Cindy Bob (6742) was not relishing the light airs and finished well back in the fleet.

First Championship heat on Saturday morning saw fifteen Herons face an "on the wind" start with the line set a little too short. Conditions were a little crowded but no serious mishap occurred. The breeze was about 8 knots for the whole of the course and the leading boats soon sorted themselves out to be Pepita (3674) Helga (4868) and Dusty (6155). As the race progressed Pepita went further ahead and finished a comfortable winner.

The second heat started downwind and after the first leg the fleet came onto the wind with Heather Lynn (5947) in the lead from Helga (4868). These two boats held the first two places and in the closing stages Pepita (3674) overhauled Sincerity (3643) to take third place. Heather Lynn was far enough in front to take the Handicap as well as the heat.

The third heat, from an "on wind" start, saw Pepita (3674) take an early lead and was never headed. Dusty (6155) chased Pepita around the course but could make little impression. Jep (7469) threaded his way through the fleet to finish third and Sue Roberts in Sea Imp (6210) did well to finish fourth and take handicap honours.

Final results were :

Championship	1st	Pepita (3674)	Bob Campbell	5.7 points
	2nd	Helga (4686)	Harry Nilsson	19 points
	3rd	Dusty (6155)	Paul Miller	20.4 points

The Handicap results were :

Invitation Race	Jep (7469)	Keith Shand
1st Heat Champ.	Dijiridi (6475)	David Morwood
2nd " "	Heather Lynn (5947)	Peter Robinson
3rd " "	Sea Imp (6210)	Sue Roberts

Trophies were presented by the Commodore of the Humpybong Yacht Club, Mr. Howard Bell, and the Queensland Association's congratulations must go to the host Club for conducting such a successful regatta.

The President mentioned in his address that next year's venue would be Cleveland Yacht Club and it is hoped that representatives from Northern N.S.W. clubs will be able to participate.

Results of the Interclub Race held 23rd February

As we remember when race day came we were still feeling the effects of cyclone "Irene" and 5 days previous the weather bureau had issued strong wind warnings for along the coast. This therefore prompted the sailing committee to an alternate plan. The original Single Handed race now became a Junior Skippers Race. The placegetters really showed fine form in the conditions.

The placings were:	1st	"Helga"	Denis Nilsson
	2nd	"Wandjina"	I. Bathgate
	3rd	"Janus"	Miss Jan Marshall

However the race had its "wet" moments. Four crews went for a swim jibing around the mark off Clontarf. This mark is beginning to earn a reputation among us. Denis Nilsson should be congratulated on not only winning the race but also getting fastest time.

The afternoon brought a grey cloudy overcast sky but otherwise almost ideal sailing conditions for the race. Boats from Humpybong, Cleveland and Ballina Yacht Clubs were entered for this race.

While all the placegetters did very well, top marks should be given to Peter Robinson. Peter, with his mother as forward hand, skippered his boat "Heather Lyn" to the lead and was rarely challenged.

The placings were :	1st	"Mandrake"	Dick Coats (HYC)
	2nd	"Heather Lyn"	Peter Robinson (HYC)
	3rd	"Dijiridi"	David Morwood (Cleveland YC.

The nominations for these races were very gratifying considering the weather conditions. This point was evident by the fact that we had two boats from Cleveland and one boat from Ballina who joined us. Tris Morris with "Ontilla" and Dave Morwood with "Dijiridi" made the trip from Cleveland. We were also very happy to greet Joan Bathgate who made the long journey from Ballina. The trip was well worth the effort for Joan for her boat "Wandjina" seemed to revel in the open water sailing.

FAR NORTH QUEENSLAND NEWS

The Far North Queensland Division of the Heron Association recently held their annual General Meeting, and the following were elected. Chairman Jack Pont (Tinaroo Sailing Club), Garth Gorton, Secretary (Tinaroo Sailing Club), Publicity Officer Laurie Garnaut (Cairns Sailing Club).

Geof Higham of Kurrimine Beach who has his boat registered with the Cairns Sailing Club has requested that the border be extended to Cardwell just south of Kurrimine, so a Notice of Motion has been moved for the next meeting of the Far North Queensland Division to bring Geof and his new Heron Club at Kurrimine into the area.

It may interest readers to know that Queensland has distance troubles, and as a point of interest, it is quicker to go by car from Brisbane to Sydney and back again than it is to go from Cairns to Brisbane.

NEWS FROM NORTH QUEENSLAND CLUBS

KURRIMINE BEACH

Geof .Higham of Kurrimine gave you plenty of news in the last issue, and I was there last August, and if you really want a pleasant and free and easy time, come to Kurrimine for the 16th and 17th August. At least twenty boats have already indicated intentions to attend, including a top brass from Sydney.

CAIRNS SAILING CLUB

With the season now ended all crews are getting ready for Kurrimine Beach in August and the opening of the 1969 season in September. Helen Garnaut in her Edith Alice and brother Butch as crew took out the Club Championship for the second year running, however, it was not as easy as last year. The Brennan family in Charinga, and the Blythe family in Pancho have really thrown out a challenge so next season could see some interesting results.

The highlight of the season in the Annual event when the Cairns Sailing Club entertains the Sea Cadets, and all Heron owners generously loan their craft for the Sea Cadets to sail, and at the conclusion the club entertains the Sea Cadets to a Social Function and give a trophy to the winning crew. As a result of this gesture it looks as though the Sea Cadets are going to get their own Herons.

LAKE TINAROO SAILING CLUB

Although we North Queenslanders were somehow missed from the New Year honours list, we were glad we were still remembered by the Heron Association - someone actually wants to hold the 13th annual championship in Queensland - and that's a thousand miles closer to us than any previous series.

There are some dedicated Heronfolk here - the Garnauts and Leitchs (Cairns) have served four years before the mast - so have the Ponts and Gortons of this club. Ted Leitch and his boys built an ocean yacht last year but wouldn't take any offers for their Heron "Jean" so she sails on - admittedly a little leaky in the joins, but that's understandable with the yacht priority - to say nothing of the conversion of the fowl-house for the Sabot and the addition to the garage for the Heron and yacht. (The car is out in the street waiting for a boat to retire.)

We inland sailors had a day at the briny for the Palm Cove Regatta - it was a day of turbulence and we're not used to launching in surf. However, life savers came to the rescue and carried boats in and out. They also gallantly carried the lady sailors - had your correspondent known this was to eventuate she would certainly have forbidden young son crew position. Joan Wright was one who didn't get her feet wet, but she and James were unlucky sailing - having got in the lead they couldn't spot a mark and had to wait for the next boat to pass and show the way this is how Flipper won and Eureka came second. The Wrights have a problem - normally both wear specs, - looks like a need for fitting some kind of wind-screen wiper?

- Top Bird series was sailed in the January long week-end and was won by Garth and Heather Gorton in Flipper. This was really an endurance test since it was sailed in near - cyclone weather and of 22 boats on the Lake 28 capsizes were recorded - we forgive John Gude his Heron's capsize; as a newcomer he did well to stay afloat until the last rounding buoy.

Champion boat for 1969 is Oroo - even though it tried to commit suicide in the first round. It was miles ahead when Russel Pont dropped the jib pole and his Dad thought it was just a matter of leaning out and retrieving it. Now the Pont boys were not too happy with 1 point for the event, so John and Russel sailed the next races - and won ! Father Pont was retired to the gaol (our Club house) but they're good lads of his - they let him out just as soon as they had won the last race.

Next on the programme is the South-West Pacific Championship to be held in Port Moresby. Going North to defend her title will be Helen Garnaut of Cairns, and also Garth Gorton from this club and Joe Higham of Kurrimine. A point of mystery exists as to the date - the Queen's Birthday week-end - New Guineans' calendars say 9th June and the Aussies' the 16th June - fellahs, ours is the white queen.

From Correspondents
R.L. GARNAUT, Cairns, and
R.L. GORTON, Tinaroo.

MIRAGE 5885 (J. Harper) KURRAJONG 4757 (Miss S. Groser) and ANNELIESE 4568 (M. Jeremic) fight it out during a Heat of the First A.C.T. Heron Junior Championships on Lake Burley Griffin. Heron "Oldies" from the coastal venues who sailed in the 8th Aust. Championships will remember with anguish the tranquil waters of the Lake. (Photo by courtesy of Canberra "Times").

VICTORIAN NEWS

FIRST MURRAY VALLEY (HERON) CHAMPIONSHIP

This new attraction to Heroners from anywhere in AUSTRALIA was held at YARRAWONGA on the Anzac (long) weekend. It was inspired by the Yarrawonga Yacht Club and (we suspect) that Alf Fletcher, owner of Snifter, was a major force behind it. The series was advertised in the Newsletter of March and it seems such a pity that so few Heroners entered for it. The Victorian Yachting Council made the event "official" by sending its Secretary to represent it and to present the prizes.

For those who do not know Yarrawonga and Lake Mulvala, it is located on the River Murray some 60 miles west of Albury. A weir at the town makes a lake which is as deep and as large as Lake Burley Griffin and should be even larger when the forest of drowned trees on the eastern section is removed. Being well supplied with hotels, motels, guesthouses and caravan parks it has ample good accommodation. Green grass grows to the lake edge and it is unusual for crews to even wet their feet when launching or "beaching" their yachts. It is not too distant from (say) Wagga Wagga, Mildura, Wanaga, Nagambie, Melbourne, Canberra or those other clubs within a similar radius.

If there is any fault about Yarrawonga it is, as is not uncommon on inland waters, the lack of wind - this certainly was the case on the Anzac weekend when fleets of Jolly Boats, Flying Dutchmen, 505, LW Sharpie, Catamaran types, Mirror 10 and 16, Sailfish, Moth, Rainbow etc. literally "gasped for air". Only 19 Heron appeared to contest the Invitation Race and 5 Heats of the Championship. From the Heron point of view here are the results :-

Invitation Race - 2 p.m. 25th April - Winds from the east at 2 mph average. NINA (G. East) and VAN DIEMEN (J. Coen) were first to BOTTS mark having found a favourable lift in shore. NINA managed to retain her position but the rest bunched during the long "crawl" down wind. In lap two the situation remained much the same. In the final stages APALIE (L. Evans) contemplated retiring when a "fresh" breeze followed her through the fleet to be second by a few lengths from NINA. The placings were -

1.	NINA	G. East
2.	APALIE	L. Evans
3.	PORTIA II	R. Bluck
4.	ALCHERA	A. McClure
5.	VAN DIEMEN	J. Coen
6.	WINDSEEKER	A. Medderson

Heat 1 - 4 p.m. 25th April - Abandoned before the start for want of wind.

Heat 2 - 10 a.m. 26th April - A less than 2 mph NE wind : the fleet crept away from the start line and skippers contemplated cigarette smoke and limp tell-tales in silence in an endeavour to be first with any air movement on the glassy lake. It was apparent that ALCHERA's skipper concentrated hardest and longest for she gradually took over the lead from PORTIA II and SNIFTER (A. Fletcher) only to halt within feet of the finish line. The $2\frac{1}{2}$ hour time limit was imposed and the race abandoned.

Heat 3 - 1 p.m. 26 April - Abandoned before the start for want of wind.

Heat 4 - 4 p.m. 26th April - Some atmospheric disturbance from NNE up to 1 mph helped the fleet away on a reaching start. FLOOKI(N. Ridgway), NINA, PORTIA II and ANCHERA moved ahead and FLOOKI appeared to have an unbeatable lead at the Mulvala mark, but in her attempts to fend off, became involved with "breeze" variation close to the area of drowned forests and "foundered" there: meanwhile ALCHERA and PORTIA II were making good progress towards BOTTS before the wind left them. From the back APALIE, WENTWEL (G. Naismith), VAN DIEMEN and WINDSEEKER rounded Mulvana together. WENTWEL tacked at once onto port soon to be followed by others. They were lucky to find a breeze that brought them up with the leaders but more into the centre of the lake. A wind change carried WENTWEL and WINDSEEKER right to the finish. The course was shortened at BOTTS with these results :-

1.	WENTWEL	G. Naismith
2.	ALCHERA	A. McClure
3.	WINDSEEKER	A. Medderson
4.	PORTIA II	R. Bluck
5.	VAN DIEMEN	J. Coen
6.	SNIFTER	A. Fletcher

Heat 5 - 10.30 a.m. 27th April - Another drifter on another glassy sea; another reaching start and more concentration and silence. VAN DIEMEN and APALIE lead early with WINDSEEKER and ALCHERA not far behind. ALCHERA lead VAN DIEMEN by 2 lengths at MULWALA mark and these two remained together until rounding the BRIDGE mark for home. Meanwhile, PORTIA II creating an air of her own, passed a large part of the fleet to be 3rd at the Bridge. From here onwards what little air movement there was had to be shared with other classes and T.A.B. fortunes were won and lost each minute. Another shorten course was given and the result was :-

1.	ALCHERA	A. McClure
2.	PORTIA II	R. Bluck
3.	WENTWEL	G. Naismith
4.	VAN DIEMEN	J. Coen
5.	APALIE	L. Evans
6.	SNIFTER	A. Fletcher.

Resume

The lack of wind did not deter the enthusiasm of competitors or judges. The local association members put themselves out to make the weekend a worthy one. Commodore Drummond (Yarrawonga Yacht Club) introduced Percy Fraser from VYC who presented the following with prizes -

Invitation Race

1.	NINA	G. East

Championship

1.	ALCHERA	First Prize and Perpetual Trophy - A. McClure
2.	WENTWEL	G. Naismith
3.	PORTIA II	R. Bluck
4.	VAN DIEMEN	J. Coen

ANNUAL DINNER DANCE - 3RD MAY

Dennis House was again the venue for this annual social and prize-giving night. Guest of Honour was our former President and friend Marshal HAWES who presented prizes. We were also happy to have as guests two representatives of the Australian Coast Guard Auxiliary which has been so generous in time and patrol beats at the important Association events.

The night was a great success due to the "very special" service given by Proprietor (and Heroner) ROY DUNCAN and the quiet and patient efficiency of KEN JOHNSON as organiser. A splendid array of prizes was displayed for all to see and for the hard work in selecting these our thanks are due to JOHN and PATTIE RYAN.

Marshal HAWES gave these prizes :-

State Championship

Senior

1.	ALCHERA	A. McClure
2.	JUNIOR II	J. Harney
3.	NOCTURNE	F. Daniels
4.	PORTIA II	R. Bluck
5.	MANDY III	G. Smith
6.	CLARABELL	B. Proven

Junior

1.	FLOOKI	P. Ridgway
2.	CRAIL	I. Tudball
3.	WENTWEL	G. Naismith

Visitor

CAPRICORNUS	D. White (Negambie YC)

Ladies

TEMPO	Michele Smart

Inter-Club Teams Racing

Black Rock Yacht Club consisting of :-

A. McClure
N. Ridgway
M. Ridgway
F. Daniels

Most Improved in Season (E. Prior Memorial Trophy)

CIRCE - P. Carver

Summer Senior

Line			Handicap	
1. ALCHERA	A. McClure		1. MILLEWA	J. Ryan
2. PORTIA II	R. Bluck		2. OPAL II	J. Naismith
3. CRAIL	I. Tudball		3. TASSIE TOO	W. Hudson
4. NINA	G. East)	Equal	4. GAYGEN	G. Vincent
4. JULIEANN	A. Amess)		5. CHIFFON	F. Ififf
6. WENTWEL	G. Naismith		6. CRAZY CAT	W. Braithwaite

5TH VICTORIAN CHAMPIONSHIP

Conducted at Elwood Sailing Club, this event attracted 52 entrants including 3 from Nagambie and 1 from Blairgowrie. Most of the other Elwood classes were away and this left the whole area free for the Championship. The Sailing Committee set courses with a "more than usual" long windward leg which proved a solid test for both stamina and skill.

A steady 15 - 20 m.p.h. Southerly favoured Heats 1 and 3; a 5 - 10 m.p.h. S.Easter - Heat 2 and a gusty 15 - 20 plus m.p.h. N.Westerly for Heat 4. The gusty conditions in Heat 4 proved too much for 10 which did not start and 20 which retired.

The credit of being Champion for the second year in succession was well earned by Alec. McClure in Alchera with 3 firsts. Concerning the other places - these were in doubt until the final heat.

We acknowledge with sincerity the help and assistance given by the Australian Coast Guard Auxiliary.

FINAL RESULTS

Place	Number	Name	Skipper	Heat Placings 1	2	3	4	Total Points	Club
1	7381	Alchera	A. McClure	R	1	1	1	0	Black Rock Y.C.
2	6189	Junior II	J. Harney	6	17	2	2	17.7	" " "
3	7273	Nocturne	F. Daniels	3	3	4	4	19.4	" " "
4	5647	Portia II	R. Bluck	4	2	6	5	21.	Elwood S.C.
5	5025	Mandy III	G. Smith	1	6	5	R	21.7	Black Rock Y. C.
6	7065	Clarabell	B. Proven	10	25	3	3	27.4	Elwood S.C.

CHALLENGE FOR TASMAN CUP

We've had a nice letter from Ken Hawkeswood - Y.W. Heron Association of New Zealand - thanking us for taking care of the New Zealand representatives during the recent National Championships. Ken also confirms the invitation passed on by this group to Bill Yuill for another Interdominion meeting.

Easter weekend 1970 (28th - 30th March) is suggested with Westhaven as the venue. It was here that the 1966 Interdominion was sailed. The June, 1967 issue of the Newsletter reported in detail on the series and judging from that it looks as if the 1970 series (if it comes off!) will be well worth taking part in.

The matter was publicized on p.15 of the March issue of the Newsletter but so far the Assistant Secretary has had no response at all from members. So, any takers! Last time twenty or so Australians went over and had a whale of a time. The New Zealanders made boats available and provided some billeting. Similar arrangements will probably prevail. We'll start to firm things up when we get an idea of the number of those interested.

SOUTH AUSTRALIAN NEWS

PORT RIVER -- Herons have completed another very successful season here. Roger Rowe (with sister Louise sailing for'ard) proved to be most outstanding skipper by winning the club championship. After the close of the season quite a few Heron skippers are enjoying some chilly week-end sailing. To make it more interest George Robertson organised a camping trip in May which was a great success.

The boats left Heron beach on the Saturday, sailed through the Cutting (at one stage the mangroves moved faster than John Keen's Korowahle and there was a dead-heat; this was said to have been caused by inexperience at one end of the boat) and set up camp on the back reaches of the river. The party was accompanied by two large sailing craft from the Port Adelaide Sailing Club. There was enough wind and green ginger wine for all hands. A little fishing and a lot of fun later the boats arrived back at Port Adelaide early on Sunday afternoon. The husbands are considering the wives' request that this should be an annual Mothers' Day outing.

Ex-Commodore Charlie Cload is busy building a Heron for his son Darryl. But after Charlie's good performance in the Officials' Race on Anzac Day it is likely that Darryl will be sailing for'ard.

BRIGHTON -- John and Joan Hurlstone have had a business transfer to New York. A canny young sailor, Don Pratt, is the new owner of QUEL; if this one doesn't go Audrey will do a sword-dance at the westerly on opening day. Brian Punke (PANCHO TOO) won the Barmera classic at Easter. Going like a rocket in the light conditions also was Ken Flint (ELKEN).

If Dick Southwood growls at you it will be because some knave slipped a dose of "GOOD O' for dogs in the savoury biscuits during cocktail hour at Port Vincent. Sure you're not barking up the wrong tree, Dick? South Australian champion Brian Snowden (TIOK) took out the winning double, with the club championship. Congratulations, Brian.

With over 100 Herons on the club register Brighton must have one of the largest Heron fleets in Australia. Would other clubs advise how we stand?

GRANGE -- Kym Foster and crew, Gary Niessen won the Club Heron Championship for 1968/69. These two young lads, both still at school, proved their ability in all weather conditions. Derek Harrison and son, Mark, were runners-up. Congratulations to all four on your consistency throughout the season.

The fourth Annual Winter Championship series will be conducted by the Grange Sailing Club commencing on Sunday 3rd. August at 1.30 p.m. The programme for the series will be:-

Invitation Race	3rd August
Seven Heats (Sundays)	10th August to 21st September
Picnic Day (10 a.m.)	28th September
Resails (if necessary)	5th October
Prize Night Cabaret	18th October

Five heats to count for the Championship final points score.

These winter programmes have proved most successful over the past years for experienced and inexperienced skippers. Beginners are given an opportunity to "get the feel" of their boats prior to the opening of the season proper whilst the "old hands" gain a good start to the season by being able to sail competitively and tune their boats to perfection. The weather is not always cold and seas rough at this time of the year. If you do not wish to contest the full series, come down and join with us on the good days. We will be pleased to welcome you. There will be good facilities, warm food and refreshments available after the races.

For beginners, this winter series will be supported by a series of lectures to be held at the Club House each Friday night from 1st August until 26th September inclusive. The lectures are FREE and are open to any existing or future yachtsmen irrespective of which Club they belong to or intend to join. Entry forms for the '69 series and further information are available from David Shuttleworth, Secretary, Grange Sailing Club 18 Sunset Crescent, Grange. Telephone 56.5877.

We look forward to new members coming our way for the next season - membership fees are the lowest on the coast!

Roger Rowe, 6400, of Port River S.C. leads the fleet away from the start in a heat of the S.A. State Championships at Largs Bay.

TASMANIAN NEWS

Heroner's speculation at Lindisfarne paid off this year with the Herons winning the Tamar-Heron teams race. The Tamar is a local class, somewhat similar to the Heron in both design and performance (?). The Herons won the event with 147.7 points from the Tamars (163.7 points), thus carrying off the coveted trophy. This is the second year that the event has been contested and has proven a popular race, with 20 entrants in all, this year.

A new race was instituted this year, when six "old buffers" were let loose in Herons ! - Jeanie (Mr. R.J. Dix) coming home first, followed by Scorpio (Mr. J. Wedd) and Dee Kay (Mr. H.D. Hewer). The race, after the initial creaking of bones, seemed enjoyable for all those concerned, letting the "old folk" put their advice to work, on the water !

The Championship series has been concluded since the publication of the last Newsletter, Shamal (5308) taking the title, with helmsman Philip Neville sailing her to three seconds and a first in the best four heats. Philip sailed consistently well in the series, finishing well in all weather.

Results:

1st	Shamal (5308)	P. Neville	-	9 points lost.
2nd	Tempest Too (754)	A. Payne	-	13.7 points lost
3rd	Scorpio (741)	P. Moore	-	14.7 points lost
4th	Tykoo (757)	R. Webb	-	27.4 points lost
5th	Flamingo (745)	G. Oliver	-	32.7 points lost
6th	Carol May (756)	G. Poale	-	44.7 points lost

The Lindisfarne Sailing Club's pennant series was completed on the 30th March with the 12th Pennant race. The over-all winner was Andrew Payne in Tempest Too (754). Andrew scored an outstanding victory in being 26 points ahead of the second boat. The pennant races being spread over the season, showed Tempest Too well up in all weather, Andrew showing skilful handling of his boat in heavy weather. Our congratulations go to Andrew and his forward hand/ sister, Debbie !

The final results were:

1st	Tempest Too (754)	A. Payne	-	14.4 points lost
2nd	Shamal (5308)	P. Neville	-	40.4 " "
3rd	Scorpio (741)	P. Moore	-	60.4 " "
4th	Flamingo (745)	D. Oliver	-	69.4 " "
5th	Tykoo (757)	R. Webb	-	84.7 " "
6th	Carol May (756)	G. Foale	-	94.4 " "

Some 18 boats in all sailed in the Heron Class pennant races this year, and we hope to be sailing even more next season, with 5 new boats being built, and many second-hand Herons being re-conditioned in the winter months.

As already mentioned in the previous Newsletter, Dee Kay (678) was included in the Clarence Municipality Float for the Blue Gum Festival. The boat was attractively set up, and all necessary precautions were taken for her transport. However, everything was thought of except the return journey to the eastern shore of Hobart, via the Tasman Bridge. An overhead road sign was too low by about four feet and lorry engine vs spring of gaff certainly tested Dee Kay's spars! The gaff bent into the mast which is now the second best thing to a set of french curves! It is interesting to note, however, that the mast did not break, despite the tremendous force onit, but merely splintered about the middle, due to the combined bending of gaff and mast - credit to the sturdy spars.

WESTERN AUSTRALIAN NEWS

The Annual General Meeting of the W.A. Heron Sailing Association was held at Perth Dinghy Club on Sunday, May 4th, with 16 members and their families present. The Secretary reported a very successful 1968-69 season with sailing starting in October on the occasion of the Royal Perth Yacht Club's opening day. By the New Year racing had started on a regular basis from the Perth Dinghy Club. The friendly atmosphere there appealed to Heroners and their numbers increased towards the end of the season when they were a part of that Club's scene. A rules night, measuring days, and picnic days (taking the form of a challenge to the Mirror dinghies at Mandurah) were all successful.

The State Championships early in March went off well. They were taken out by Brian Davis in "WEFREE", and are reported in detail below.

Election of officers for the 1969/1970 season resulted in -

President	A. Oram
Hon. Secretary	E. Cartwright
Hon. Treasurer	D. Davis
Y.A.W.A. Delegates	R. Carless, W. Baker
Committeemen	E. Fletcher, F. Rennie
Hon. Auditors	J. Hogan, D. Cadd

Major trophy winners of the season were -

State Champion	Brian Davis	WEFREE 5152
Metropolitan Trophy	Bill Baker	PLOD 5359
Consistency Trophy	John Hogan	THE WITCH 5787

STATE CHAMPIONSHIP 1969

The West Australian weather has not behaved itself this year and Saturday 1st March was no exception. Starters in the fourth State Championships awoke to find dense fog blanketing the river, and for some time rule books were consulted as to the regulations regarding fog-horns.

However, a light sou'wester finally dispersed the murk and a fleet of thirteen boats came to the line for the invitation race. The light breeze rather cramped the style of the heavy weather artists and, being fluky and full of holes, completely upset the usual order of superiority. Scratch boats were crossing the finishing line abreast of five minute markers and generally causing the handicappers to roll their eyes heavenwards in despair.

Invitation race result -

1st	DODGER	6526	G. Howe
2nd	JALEDRO	6583	E. Fletcher
3rd	GUBATU	7199	F. Rennie

FIRST HEAT SATURDAY MARCH 1ST

By early afternoon the normal order of weather had re-established itself and a steady 18 knot southweaterly breeze promised good sailing. The fleet had increased to twenty for this event and everybody got a bit edgy on the line - a recall of two boats turning into a general recall as everybody tried to decide whether they had broken or not.

The first leg to Foam Spit once again showed the undesirability of reaching starts as the twenty starters all arrived at the mark simultaneously. Somehow the rule book never seems quite adequate to this sort of situation. When the tumult and the shouting for water had died only two had fallen by the wayside, but unfortunately they were Roy Carless in Cee-L and Martin Thomas in Wendy, both strong contenders for the title. There were plenty of others with fairly sizeable teethmarks on their hearts however and a "there but for the grace of God go I" look in their eye. The steady breeze caused the normal order of skill to re-appear, and by the finishing line the usual scratch boats were well to the fore.

First Heat result :

Championship Placings	1st	WEFREE	5152	B. Davis
	2nd	GUBATU	7199	F. Rennie
	3rd	BETSY V	5546	T. Oram

SECOND HEAT SUNDAY MARCH 2ND

This day dawned with not a trace of fog - and not a trace of wind either. By the dint of such surreptitious ooching and rudder waggling, the twenty starters slowly drifted to the line. Guns fired, flags went up and down and the fleet drifted slowly away towards the first mark. What a frustrating experience these races can be. Boats lay becalmed and watched others only yards away slowly sail off. The inevitable shorten course signal went up and the boats finished with the breeze just starting to freshen. Brian Davis now had two under his belt and was beginning to get a grip on things.

Result Heat Two.
Championship Placings.

Wefree	5152	B. Davis	1st
Thataway	6991	E. Cartwright	2nd
Phoenix	7492	J. Buchanan	3rd

THIRD HEAT SUNDAY MARCH 2ND

By early afternoon the breeze had increased to a heavy sou'wester, taut luffs and hard boom vangs being now the order of the day. The sudden transition from the calm of the morning to the bluster of the afternoon was heightened by having to share the start line with a pack of Pelicans and a clutch of Cherubs. There was action even before the gun with Wendy bottling and Thataway snapping a mainsheet block off the boom. The heavy slog was then on and a steady stream of bedraggled and wingless Herons came back to the beach. Jaledro was first in followed by Dodger with a snapped rudder then Robyn minus a mainsail while Makara and Wefree went swimming. Our rescue launch capsized going to the rescue and then Royal Perth Yacht Club's rescue launch would not start. As one race officer remarked "if we fell in the whole club would be in the drink." Finally, everyone sorted themselves out - all were accounted for and it was time to see who made it. Naturally last years champion.

Result Heat Three.
Championship Placings.

Cee-L	7380	R. Carless	1st
Phoenix	7492	J. Buchanan	2nd
Firebird	5956	Miss J. Austin	3rd

FOURTH HEAT MONDAY MARCH 3RD

So far we had experienced fog, light, easterlies, no wind at all and roaring sou'westers. This left only one breeze - a roaring easterly - and that's what we got for Heat four. However, anything is better than no breeze and the fleet set off for its final outing. Wefree quickly established a grip on the race and was only challenged by Tai-fun for first place. Tai-fun eventually crossed the line five seconds ahead of Wefree but retired for an infringement.

Result Heat Four.
Championship Placings.

Wefree	5152	B. Davis	1st
Thataway	6991	E. Cartwright	2nd
Catherine	7030	P. Jefferies	3rd

When worst heats were discarded Wefree was the clear winner having lost no points.

FOURTH W.A. STATE CHAMPIONSHIP

	Wefree	5152	Brian Davis 1st
	Phoenix	7492	Jim Buchanan 2nd
	Gubatu	7199	Frank Rennie 3rd
Consistency Winner.			
	Dutchy	6799	M. Van Moorsel
Junior Champion.			
	Wefree	5152	Brian Davis
Lady Champion.			
	Firebird	5956	Janet Austin

Championship Comments.

Last year's Champion - Roy Carless - never really got going. A retirement in the first heat is not the best start to a series. However, watch this boy next year.

Jeff Cronin, up from Albany with Tai-fun had bad luck retiring from three heats, each of which would have placed him well. Better luck next time Jeff.

David Royle, down from Fireball sailing at Port Moresby, returned to his old class in a borrowed boat and showed many of the locals the way around the course. T.P.N.G. members will notice Gubatu in the results. Frank has not got her going as quickly as Guba yet but every time Jan Rennie re-sews the jib Frank goes up a place,

PERTH DINGHY CLUB NEWS

Ted Fletcher reports -

Our first season with the Perth dinghy club has been a great success and Herons are now firmly a part of the club scene. They make an excellent comparison class to the totally different 14 foot dinghies and balance the club nicely. Conditions at the club are excellent, and no doubt next season will see even more of our members sailing from this venue. Certainly the other members of the club have been most impressed with the performance of the Herons. Probably our finest display occurred the day your scribe, reeling under his load of secretarial worries and running late, took off from the beach into a brisk easterly, with a novice crew aboard and the entire Club observing his polished style. A rather slipshod tack off the beach was the beginning of disaster. We got caught in irons - drifted back onto a rowing eight just leaving the nearby University Rowing Club - The Captain stepped daintily over the side to lead his yacht out of danger - forgot the area had been dredged to nine feet - ..... Have you ever seen a Heron with the skipper in the water, the forward hand paralytic with laughter, locked onto the outriggers of a rowing eight and finally with the tip of its gaff jammed up the downpipe of a Rowing Club roof. When I finally swam ashore I received an ovation from young and old!!

Royal Perth Yacht Club Notes.

Racing at Royal Perth Yacht Club has not been so well supported this season, probably due to the transfer of several boats to the Dinghy Club. As the two clubs are so close together, it was decided at the A.G.M. that Association racing would cease from Royal Perth next season. This decision marks the end of a long and happy association with the Royal, and all members of the W.A. association are conscious of the debt we owe this club for help in establishing the class in W.A. Perhaps in the not too far distant future the class may grow to the stage where Herons again race from Royal Perth, not as Reciprocal Sailing Members, but as club members with their own class at the Club.

11TH NATIONAL CHAMPIONSHIPS

In all the excitement about the 12th Championships in Hobart, don't forget the 11th in Adelaide during December 1969 and January 1970.

Some details regarding the programme and accommodation were set out in the December issue of the Newsletter. Notice of Race and Entry forms will appear in the September issue of Newsletter.

REMINDER FOR ANNUAL SUBSCRIPTION

A lot of us have gone into hibernation with the onset of Winter and this seems to have also affected the payment of the annual subscriptions to the Association.

HAVE YOU PAID UP YET?

If not, please fill in the application form for continuation of membership. Its the pink sheet in the middle of the December issue of Newsletter. Our Registrar, Mary Clarke would be delighted to hear from you.

BOOK REVIEW – SCIENTIFIC SAILBOAT RACING

BY TED WELLS

A book written by an experienced Heroner exclusively about sailing Herons may eventually become a reality but until then it remains a question of finding a book which will most help the tyro in search of the finer arts. More often than not an inappropriate book can be quite misleading as witness the techniques for sailing a high-performance skiff downwind whilst carrying a spinnaker - when applied to sailing a Heron.

The SNIPE has a number of characteristics similar to the Heron, 15ft long, jib and main only, high boom, needs a good breeze to make it plane, two-man crew and large fleets. This book is written by a recognised authority on Snipe sailing in Ted Wells, who is chief engineer of the Beech Aircraft Corporation and well qualified to recognise what is important from the technical point of view. "SCIENTIFIC SAILBOAT RACING", written first in 1950 is a book which in the words of Bill Northam (who wrote the foreword) "has stood the test of time."

This Edition has been edited by John Chomier, editor of the "YACHTSMAN", who has inserted introductory passages where necessary to up date the text and bring it into line with present day sailing and rules. Wells reveals his secret of success in winning races, a thousand small perfections. There are 62 pages of diagrams and 20 pages of photographs to help illustrate the text.

It is necessary to ignore the sections dealing with planked hull construction and cotton sails but these do not occupy many pages. There is a great deal of solid material both on sailing technique and racing technique. This edition has been published in Australia with the Heroner in mind, under the guiding hand of Pat Lawson of the Balmoral Club. It is well worth your inspection.

SCIENTIFIC SAILBOAT RACING by TED WELLS is published in association with Hicks, Smith & Sons, Australia and is available at all good bookshops. Price is $6.00.

CONSTITUTION AND RULES

OF THE

Y.W. HERON SAILING ASSOCIATION OF AUSTRALIA

NAME

1. NAME. The Name of the Association shall be the Y. W. HERON SAILING ASSOCIATION OF AUSTRALIA
and the Class shall be known as the AUSTRALIAN NATIONAL HERON CLASS.

OBJECTS

2. OBJECTS. The objects shall be
(i) To encourage the growth of the Class as a "ONE DESIGN".

(ii) To ensure racing on equal terms by making rules for the regulation of racing among boats belonging to the Class.

(iii) To ensure that all such racing takes place under the Rules of the International Yacht Racing Union except as those Rules shall have been modified by the Royal Yachting Association and the Yachting Authorities of the States of the Commonwealth of Australia and these Rules.

(iv) Where necessary to allow the formation of State Associations to control the racing of Herons within their respective States and to represent the Class in all dealing with the sailing authorities of these States.

Such State Associations shall have the power to form DIVISIONS within their respective States where necessary for local liaison between Clubs.

(v) To publish a Periodical to be known as HERON NEWSLETTER; issues to be made at least quarterly; all copies posted to the private addresses of members or contributors to be forwarded regularly. The price to be included in the annual subscription and $1.40 per annum from each members annual subscription shall be set apart for the journal and be separately accounted for in the Annual Balance Sheet and duly audited.

CONSTITUTION

3. MEMBERSHIP. Membership shall be open to owners of "Heron" Dinghies and others interested in the Class.

The following grades of membership shall exist:-

(a) sole owners;
(b) joint owners, where the ownership is registered in several names but only one subscription is payable;
(c) part owners, where the ownership is registered in several names but subscriptions are payable by each part owner;
(d) life members who shall have been duly elected by a two-thirds majority of the members in Annual General Meeting and who shall number not more than ten at any one time;
(e) non boat owners.

4. VOTING. (i) At General Meetings only those members in grades (a), (b), (c) and (d) may vote; those in grades (a) and (d) shall have one vote and those in grades (b) and (c) shall have one vote between them per boat.

(ii) Members who are unable to attend a General Meeting of the Association may record their votes by post on any motion set out in the Agenda of that meeting. Postal votes and proxies in the form of Appendix "B" to these Rules must reach the Secretary 48 hours before the time fixed for the meeting.

5. MEETINGS. (i) The Annual General Meeting shall be held in the first fortnight in May in each year and of which not less than 14 days notice shall be given to members.

(ii) A Special General Meeting may be called by the Committee at any time on not less than 21 days notice to members.

(iii) On the written request of not less than ten percentum of the members, stating the purpose of such a meeting, the Secretary shall call a Special General Meeting of Members to be held within two calendar months of receipt by him of the requisition. The requisitionists shall lodge with the Secretary an amount of money sufficient to pay the cost of printing and postage to members of the Notice calling the meeting.

6. OFFICERS. The Officers of the Association shall be the President, Immediate Past President, three Vice Presidents, Honorary Secretary, Honorary Assistant Secretary, Registrar, Honorary Treasurer and Editor 'Heron Newsletter', all of whom shall be elected annually except the Immediate Past President who shall hold office as of right until there is a change in the Office of President.

7. AUDITORS. One Honorary Auditor shall be elected annually.

8. MANAGEMENT COMMITTEE. The management of the Association shall be vested in the officers of the Association, the Life Members and a Committee. The officers of the Association shall appoint to the Committee Representatives recommended by the State Heron Associations. The number of representatives to be appointed to the Committee from each State Association shall be the dividend, exclusive of fractions, obtained by dividing ten times the number of members resident in that State on the 1st May at the commencement of the relevant year who are eligible to vote under the provisions of Rule 4, by the total number of all such eligible members in the Association; provided that, where such dividend is less than unity, the number of representatives shall be one.

9. TECHNICAL ADVISER. The officers of the Association may appoint a Technical Adviser annually.

10. ALTERATION OF RULES. (i) No alteration of these rules shall be made except at an Annual General Meeting, or at a Special General Meeting of which proper notice has been given.

(ii) Any proposal for the alteration of a rule must reach the Secretary 28 days before the date of a meeting, and shall be signed by the Proposer and Seconder.

(iii) No alteration shall be made to any of the Rules of the Association unless two thirds of the votes cast are in favour of the motion.

11. INTERPRETATION. In the case of any dispute regarding the interpretation of any rules, it is to be noted that it is intended that the rules shall be read in the spirit rather than by the letter of the rule. The decision of the Committee shall be final.

FINANCIAL

12. FINANCIAL. The Annual Subscription shall be payable on the 1st day of April, or on joining. The subscription of members joining on or after 1st February in any year shall cover the period to the end of the following Association year.

Annual subscriptions for the time being shall be

for sole owners	-	$4.00
for joint owners	-	$4.00 - jointly
for part owners	-	$4.00 - for each part owner
for life members	-	Nil
for non boat owners	-	$4.00

and shall be determined from time to time by the Management Committee.

13. ACCOUNTING. (i) The accounts of the Association shall be made up to the 31st day of March in each year.

(ii) All funds accumulated by the Association shall be banked within 14 days of receipt.
(iii) All payment cheques shall be signed by two members of the Committee.

14. IMPREST ACCOUNTS. The Association shall open and maintain an Imprest Account on behalf of each State Association upon which the officers of that State Association shall be authorised

to draw and which shall be reimbursed by the Association upon presentation to it of an accounting by the State Association of monies expended by the said State Association from the said Account.

15. REGISTRATION FEES. Upon the initial issue of a Sail Number in respect of a Heron Class Yacht in accordance with Rule 16 or upon transfer of a class certificate from an owner to a purchaser as provided in Rule 20 (v), a fee of $2.00 shall be payable by the new owner to the Association.

16. SAIL NUMBERS. Sail numbers will be issued on application to the Secretary of the Association and the number shall be carved on the transom beam or deck beam inside the boat.

MEASUREMENT RULES

17. MEASUREMENT COMMITTEE. There shall be a Measurement Committee which shall be appointed by the Management Committee of the Association and which shall operate under the constitution set out in Appendix "A" to this Constitution and Rules; such Appendix "A" shall form part of these rules.

18. MEASURERS Official Measurers shall be appointed by the Management Committee. The Measurers shall adhere strictly to the instructions issued to them by the Management Committee, which may terminate any appointment at its discretion.

19. MEASUREMENT FEES. Upon the completion of a boat for which a sail number has been issued in pursuance of Rule 16 or upon replacement of sails or repair of extensive damage to the hull of a previously measured boat, the Owner shall notify the Association of the circumstances in writing; the Association shall thereupon advise the Owner of the name and address of a Measurer and it shall be the responsibility of the Owner to effect a mutually convenient arrangement with such Measurer to inspect, measure and report to the Association upon the boat as to its suitability for the awarding of a class certificate as provided for in Rule 20. No fee shall be payable for measurement but the Owner shall meet all reasonable travelling and out of pocket expenses incurred by the Measurer.

20. CLASS CERTIFICATES. (i) "A" Class Certificates shall be granted to all boats built to the Y.W. "HERON" official plans (subject to any modification agreed by the Association) which pass measurement within the tolerances laid down by the Association, and which, in the opinion of the Measurement Committee are built fairly to plan and in accordance with generally accepted standards for amateur built craft.

(ii) "B" Class (Restricted) Certificates may also be granted to boats built to the Y.W. Heron Plans which fail to comply with tolerances laid down by the Association or which, in the opinion of the Measurement Committee are not built fairly to Plan.

(iii) "C" Class (Provisional) Certificates shall be granted to owners upon issue of a sail number.

(iv) The Measurement Committee shall have power to withdraw, alter or restore a Class Certificate when there has been a change in the condition of the boat or when re-examination shows that the original Certificate was inappropriate.

(v) All certificates shall be renewed annually on 1st April. In the event of the sale of a boat, the certificate shall be returned to the Secretary for transfer to the new Owner.

21. ASSOCIATION LIABILITY. When a classified boat is sold the Association does not accept responsibility for faults therein.

22. HULLS. Hulls shall conform to the lines, dimensions and specifications detailed on the official plans supplied through the "Yachting World". The weight of the hull with decking and fixed fittings, including footings or floorboards, but stripped of all loose gear, including sails, spars, rudder and buoyancy, shall not be less than 140 lbs., except that where a boat has built-in buoyancy, the minimum hull weight shall be 145 lb.

23. SPARS. The spars shall be of wood and must conform to the dimensions given in the Official plans, except that a tolerance of plus 1/4" or minus 1/8" will be allowed on the diameter of the mast and the gaff may be left square in section provided that the finished dimension is such that it will pass through a 2-1/8" square, one side of which lies in a plane parallel to fore and aft plane through the gaff. The mast may be laminated vertically.
Gaff Jaws: Gaff Jaws need not conform to the shape shown on the Official plans provided that they neither alter the type of rig nor their intended function.

24. SAILS. Sails shall not exceed the dimensions on the Official plans and may be of any woven material, but a suit must not exceed $70.00 in retail cost, exclusive of hanks, insignia, numbers, battens and colouring. Sails in use before the 18th March, 1957 are exempted from

this rule, but any replacement must conform. Transparent panels are not permitted.

There shall not be more than three batten pockets in the mainsail and none of these shall exceed 24" in length, provided the sails measured before 1st September, 1962 where only the batten pockets do not comply may be accepted. The position of the batten pockets is optional. A leech line in the mainsail is permitted.

The roach of the mainsail must not exceed 9".

Spinnakers are not allowed, but the clew of the jib may be boomed out on the opposite side of the mast to the main boom by a spar, which shall be attached to the mast at its inboard end.

25. BLACK BANDS. A black band shall be painted on the side of the boom, with its inner edge 7'6" from the aft side of the mast, and the foot of the mainsail shall not extend beyond the inner edge of this band.

A black band shall be painted on the mast with its lower edge 4'0" above the hog. The lower edge of the boom must not be above the lower edge of the band.

26. MODIFICATIONS. The following modifications are permitted.

The addition of Wash Boards, Chine Rubbers, a Stern Knee, Stern Decking, a Kicking Strap, Toe Straps, Jambing Cleats for jib sheets, which may be led through adjustable fair leads and outhauls for mainsail foot tensioning while under way.

Rubbing Strips on the Gunwales may extend out from the hull a maximum distance 2 1/2" forward of the Chainplates and 2" aft of the Chain plates. Rubbing Strips on the bottom of the boat shall be optional.

Thwarts and Side Seats may be of timber, or plywood and timber composite, provided that their strength is not less than that of the design on the plans.

Skeg: The skeg must conform to the profile shown on the plans but may be faired off towards the after end.

Floorboards: The design of the floorboards is optional.

Centreboard Case: The centreboard case may be of plywood but only if the sides are not less than 3/8" in thickness.

Centreboards: The centreboard may be of other timber than the 3/8" plywood specified and may be covered with glass fibre cloth and resin.

Fore-deck: An additional deck beam or carlin may be fitted between No. 1 and No. 2 frames.

Tiller: Tiller and extensions need not conform to the dimensions specified in the Official plans.

Shrouds: The method of attaching the shrouds shall be optional, provided that the chain-plates are in position shown in the official plans.

Mainsheet: The lead of the mainsheet may pass from the transom through blocks in the cockpit of the boat but may not otherwise deviate from the arrangement shown in the plans.

Halliards: Halliards must be fitted in such a way that both sails and gaff can be readily lowered without lowering the mast. Halliards may be of other material provided that they are not weaker than those shown on the plans.

Sheets: Sheets may be of any sizes or any material provided that they are not weaker than those shown on the plans.

Fittings: Fittings need not be identical with those on the official plan.

Forestay: The forestay may be fastened at the stemhead instead of passing through the decking.

Rudder: Rudder blades may be of 3/8" or 1/2" plywood.

SAILING RULES

27. ELIGIBILITY TO RACE. (i) Boats classified "A" Class shall be eligible to compete in all events organised by or on behalf of or under the Rules of the Association.

(ii) Boats classified "B" Class shall be eligible to take part only in races decided on Handicap.

(iii) Boats classified "C" Class shall be eligible to take part only in Club Handicap events, at the discretion of the Club organising the event.

28. CREW. (i) In all races under Association Rules the crew shall be at least two, unless otherwise stipulated.

(ii) One member of the crew must be a member of the Association.

29. BOAT BUOYANCY. (i) Sufficient buoyancy must be carried to ensure the safety of the crew at all times. Built-in buoyancy compartments are permitted ahead of frame 2 and astern of frame 5 but are not allowed in any other section of the boat. Where inbuilt buoyancy is con-structed it is recommended that P.V.C. Bags or other suitable flotation material is enclosed in the built-in section.

(ii) Buoyancy consisting of P.V.C. Bow Bag and Pillow Bag aft and two boat rollers will be accepted as sufficient buoyancy without undergoing test. The Committee may from time to time announce other buoyancy combinations, as fulfilling the minimum buoyancy requirements, which will not be subject to annual testing.

(iii) All boats not complying with preceding requirements shall have their buoyancy tested in the first instance by the Measurer, and thereafter, under Club arrangements once a year. Certificates shall be issued by an official of the Club making the test, and no boat shall be permitted to race unless the buoyancy is in place and the Owner is in possession of a certificate granted no more than twelve months previously to the date of the race.

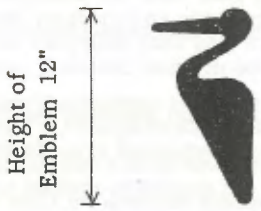
30. PERSONAL BUOYANCY. An efficient aid to flotation complying with Australian Standard Z 28 "Buoyancy Vests" (issued by the Standards Association of Australia) shall be worn by each member of the crew while racing in all events conducted by or on behalf of the Association.

31. OARS. Oars or paddle(s) must be carried in the boat in all Association races.

32. ANCHORS. Anchors and Cables or warps as prescribed by Rule 23 of the Rules of The International Yacht Racing Union may be carried, but shall be carried only when prescribed in the Sailing Instructions.

33. TRAPEZES, etc. Trapezes, sliding seats or similar contrivances for increasing the stability of boats shall be barred.

34. CAPSIZING. If a boat capsizes during a race, that is, if the top of the mast touches the water, the boat is disqualified and must retire.



THE EMBLEM OF THE AUSTRALIAN NATIONAL HERON CLASS

The emblem shall be worn on the Mainsail at about one-fifth the height of the sail from the peak and shall face the sail luff with the underside of the "bill" parallel to the foot of the sail and the "back" parallel to the luff.

* * *

SAIL NUMBERS should be 12" high by 8" wide

APPENDIX A

APPENDIX "A" to the Constitution and Rules of the Y.W. Heron Sailing Association of Australia, being the Constitution and Rules of the Measurement Committee.

1) The Measurement Committee shall consist of five members including the Chairman and Minute Secretary. The number may be changed at the request of the Measurement Committee and approved by the Management Committee of the Y.W.H.S.A. of Australia.

2) The Measurement Committee will elect a Chairman and Minute Secretary from their number, annually, as soon as possible after the 1st of February and will notify the incoming Management Committee of the Y.W.H.S.A. of Australia.

3) The Chairman shall be a full member of the Management Committee of the Y.W.H.S.A. of Australia ex-officio.

4) The Chairman and Secretary shall hold office for no longer than three consecutive years, but may then serve on the Measurement Committee in another capacity.

5) The Measurement Committee shall nominate candidates for the Measurement Committee to the Management Committee of the Y.W.H.S.A. of Australia as vacancies occur.

6) A Quorum shall be three of which one may be the Chairman.

7) Decisions of the Measurement Committee shall be reported to the Management Committee of the Y.W.H.S.A. of Australia for consideration at its next meeting.

8) In the event of major disagreement between the Measurement Committee and the Management Committee of the Y.W.H.S.A. of Australia, the recommendations of the Measurement Committee shall be submitted to the next General Meeting of the Y.W.H.S.A. of Australia.

9) Every year one member of the Measurement Committee shall retire by rotation, but may be eligible for re-election. The retirement shall occur on the 1st February, the person with the longest service retiring first.

APPENDIX B

I ..... of ..... being a financial member of the Y.W. Heron Sailing Association of Australia and owner of Heron Class Yacht No. ..... hereby appoint ..... of ..... or failing him ..... of ..... as my Proxy to vote for me and on my behalf at the Annual/Special General Meeting of the Association held on the ..... day of .....19.. and any adjournment thereof.

Signed ..... this ..... day of ..... 19...

(NOTE:- Instructions to Proxy should be the following form -

"This form is to be used $\frac{\text{in favour of}}{\text{against}}$ the Motion(s) on Notice dealing with .....".

RELEVANCE: Includes amendments passed at the 9th Annual General Meeting, 14th August, 1967.

Mike Fletcher, winner of 10th National Championships, provides an interesting study of sail trim and balance.

SPAR

THIS IS THE SIGN OF THOROUGH RESEARCH & QUALITY CONTROL

STARBOARD PRODUCTS AND RESEARCH

STARBOARD PRODUCTS PTY. LTD.
54 BROOK ST. NAREMBURN
N.S.W. 2065 PHONE 43 6752

The increasing demands of high performance sailing with its problems in bends, shapes and tuning can give you a real headache! To whom do you turn to gain those precious extra minutes?
FRANK BETHWAITE of SPAR has been quietly doing detailed research on centreboards rudders, spars and sails for a number of years– not only in the testing room and workshop but also where it counts – ON THE WATER!
He has Champions in 9 classes using his gear, and now, with Peter Dunn, he is ready to give the benefit of this knowledge and experience to you.

SPECIALISTS MANUFACTURERS OF:-

SPAR · CENTREBOARDS RUDDERS
★ Shaped for controlled surface flow
★ Least drag · sail faster ★ Least leeway · work higher

SPAR · SPARS & RIGS
★ Mast and gaff stiffness, correctly tuned to crew weight for fastest sail shape in all breezes ★ COMPLETE RIGS – Spars, sails, battens and controls, mutually matched to work together, smoothly and efficiently.

SPAR · PACKAGE DEALS
★ Complete rigs also centreboard and rudder, assembled and packaged for country and interstate.
★ Please advise crew weight for correct tuning of mast and gaff stiffness.

frank BETHWAITE · peter DUNN

will take the guesswork out of your sailing

Give your Heron TASKER POWER

Your Heron will really sail when powered with Rolly Tasker sails and gear. Tasker is the Heron specialist supplying a complete package kit of all hardware, stays, halyards, sheets, sails, etc. You won't beat them for quality and value at the price.

SPECIAL CLOTH IN TASKER SAILS

Benefit from Rolly Tasker's world-wide experience in sailmaking. Tasker sails for Herons are made of special cloth, woven and finished to Rolly's own specifications to cope with Australian conditions and prevailing winds. Your boat will sail faster, and higher with sails carrying the black boomerang.

ROLLY TASKER

Branches are staffed by an Olympian and the holders of over ninety eight championships.

NEED ADVICE ?

Tasker's staff are there to advise you.
